A. FY 2011 Audit Report

Mr. Jack submitted and read the following report to the Council:

"The financial statements for the fiscal year ended June 30, 2011 were audited by the independent accounting firm, McGladery & Pullen, LLP. The City received an unqualified opinion on the financial statements.

Overall, the financial position of the City improved over the prior fiscal year. The general fund had a budgetary surplus of \$2.1 million. Most of the surplus came from increase in Aberdeen Proving Ground (APG) management fees, savings from unfilled vacant positions, and better than expected tax revenues.

The water and sewer funds posted net incomes of \$1 million and \$651 thousand, respectively. The Stadium fund posted a net loss of \$330 thousand.

The City's long-term liabilities increased by \$5.3 million to \$23.2 million mostly due to new loans for capital projects.

The City's net assets increased by \$8.3 million to \$47.4 million. A net asset is the difference between total assets and total liabilities. This increase is primarily due to increase in tax revenues, charges for services, and capital grants.

The fund balance for the City's governmental funds was \$6.8 million. A fund balance is the difference between current assets and current liabilities. About \$5.9 million of the \$6.8 million is unassigned and can be used to support the general government's operating needs.

In the governmental funds, property taxes increased by \$563 thousand.

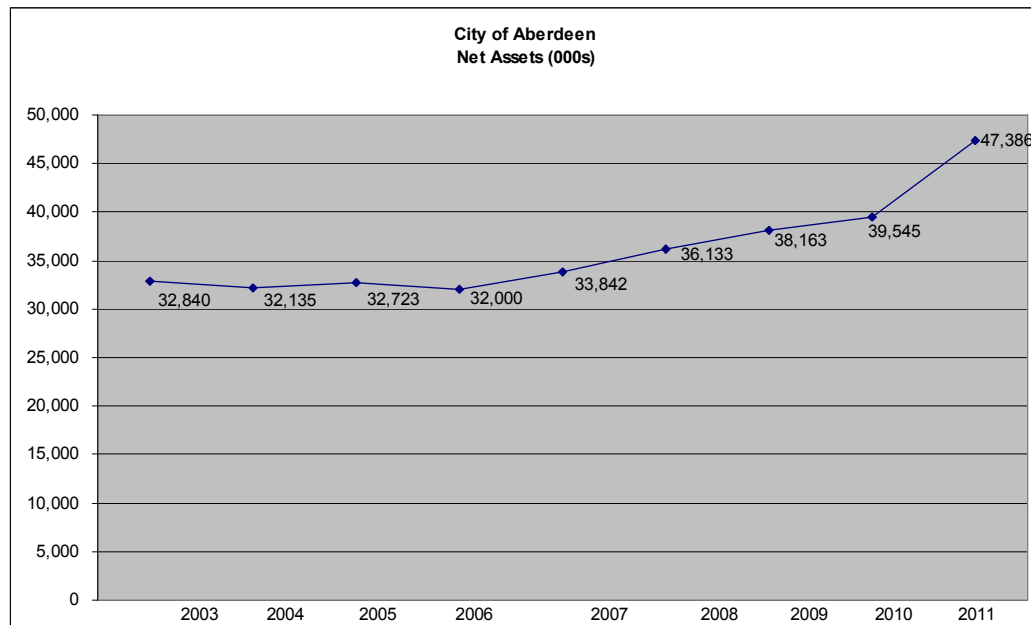

Charges for services increased by \$456 thousand, mostly from APG management fees.

Expenses decreased by \$693 thousand from the prior year. The decrease is mostly due to unfilled vacant positions and savings in medical insurance premiums.

In the enterprise funds, charges for services increased by \$1.5 million from the prior year. Expenses were consistent with last year.

Finally, it is worth pointing out that the City's net assets have steadily increased since 2006. The trend in net assets may be a useful indicator of whether the financial position or condition of the City is improving or weakening. The trend since 2006 indicates improvement."

Mr. Jack continued and referenced this chart to the Council:

### A. Bid Award – 12-01 Rebid

Mr. Lapinsky submitted a bid from Moxley's, Inc., Street, Maryland, for a utility body and lifting crane, Knapheide Body Liftmore Crane, in the amount of \$19,800.

A motion was made by Councilwoman Landbeck and seconded by Councilwoman Young to approve the bid from Moxley's, Inc. for a utility body and lift crane in the amount of \$19,800.

**The motion was passed with a vote of 5 – yes.**

Mr. Lapinsky updated the Council on the enhanced nutrient removal (ENR) upgrade as of November 2, 2011. He reported it is moving along well. An extension was given for poor weather conditions which extended the completion date to

October 12, 2012. The total contract value is now \$19,579,825. Work is taking place on the second reactor and equalization tank.

Variable frequency drives are being installed in the fourteen well systems. This enables utilities savings and helps the City manage the wells better. Completion should take place by the end of 2011.
