Introduction

A municipal budget is far more than a financial document; it reflects the priorities and key objectives set by the municipality for the next twelve to eighteen months. So, when examining the budget, one must not simply look at the column of numbers on a page but also try to see what the municipality wishes to accomplish over the next year. The budget provides some explanations, by department/function, of what the City of Aberdeen wishes to concentrate on in Fiscal Year 2022.

There are two categories of funds.

1. Governmental Funds, consisting of the General Fund, and Capital Projects Fund.

The General Fund is used to account for all government functions not required to be separately accounted for. The Capital Projects Fund accounts for costs of construction and other capital purchases.

2. Enterprise Funds, consisting of the Water Fund, Sewer Fund, and Stadium Fund.

The enterprise funds are used to account for operations that are operated in a manner similar to private businesses, where the intent of the governing body is that the costs, including depreciation, of providing services to the general public on a continuing basis be recovered, primarily, through user charges.

The Budget is actually four separate budgets; the General Fund (Operating and Capital) supported by tax revenues and fees, the Water Fund supported by water charges, the Sewer Fund supported by sewer charges, and the Stadium Fund for Aberdeen's municipally owned Ripken Stadium, partially supported by transfers from the General Fund.

It should be mentioned that the City provides most of the key municipal services with the key objective to provide them well. The proposed budgets will maintain the quality of services expected by the community.

The budget for FY 2022 is \$33 million. About \$13 million or 39% of the budget is for the self-supporting activities of the City's enterprise funds which focus on city-related business operations.

Budget Discussion

General Fund Operating

Revenues

<u>Property Taxes</u>. The assessable bases for Real and Personal Property Taxes are provided by the State, which the City uses to generate the tax bills. The Real Property Tax rate for the FY 2022 budget is \$0.64 per \$100 of assessable base. The Personal Property Tax rate is \$1.70 per \$100 assessable base. Property taxes are projected to be \$10,886,041.

Other Taxes. This category consists of Franchise tax on cable companies, Mobile Home tax on mobile home parks, and Utility tax on utility poles and conduit lines placed within the City by electric and telephone companies. Revenues from other taxes are projected to be \$261,667.

<u>State Shared Revenue</u>. In this category are Income Tax, and Highway User Revenues (HUR). State Shared Revenues are projected to be \$2,024,000.

<u>Licenses and Permits</u>. This category includes, but is not limited to, Traders Licenses, Grading and Building Permits. Revenues from this category are projected to be \$94,250.

<u>Police Grants.</u> State Aid for Police Protection and Special Patrols are included in this category. The State allocates funds to the County based on population density, net taxable income, assessable base, and per capita police expenditures. The funds are divided between the County and municipalities on the basis of relative police expenditures for the immediate preceding fiscal year. The Aberdeen Police Department performs special patrols where it occasionally participates in joint operations with the State and Federal governments; it also patrols certain County and business premises. The costs of these patrols are reimbursed. Police Grants are projected to be \$356,674.

<u>County Shared Revenue</u>. The two major items in this category are Police Tax Differential and Hotel Tax. Aberdeen's share of the Hotel Tax is projected to be \$400,000. The Police Tax Differential is revenue returned to the City by the County to compensate for police services it provides in lieu of services that would otherwise be provided by the County. County Shared Revenues are projected to be \$1,909,514.

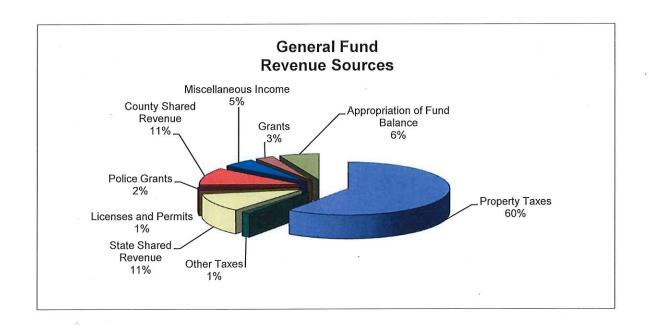

<u>Grants:</u> This category includes grants from the County, State, and Federal governments that are not reported as shared revenues. The budget for this category is \$533,348.

<u>Miscellaneous Income</u>. This category includes all other revenue sources that could not fit into any of the preceding categories. Miscellaneous Revenues are projected to be \$942,700.

<u>Appropriation of Fund Balance.</u> The City will be appropriating \$1,162,238 from Unassigned Fund Balance to fund capital projects and Stadium Fund expenses.

General Fund Revenue Sources

		% of
Description	Amount	Budget
Property Taxes	10,886,041	60%
Other Taxes	261,667	1%
State Shared Revenue	2,024,000	11%
Licenses and Permits	94,250	1%
Police Grants	356,674	2%
County Shared Revenue	1,909,514	11%
Miscellaneous Income	942,700	5%
Grants	533,348	3%
Appropriation of Fund Balance	1,162,238	6%
Total Revenues	18,170,433	100%

Expenditures

<u>Legislative.</u> The legislative portion of the budget pertains to the activities of the Mayor and City Council. Included in this area are their salaries, training and travel expenses and memberships in State and national municipal organizations. FY 22 request: \$149,198.

<u>Executive</u>. The executive portion of the budget supports the activities of the City Manager, City Clerk, Human Resources Director, IT Coordinator, Safety Director and Administrative Assistant. FY 22 request: \$622,495.

Elections. No election is scheduled for next year. FY 22 request: \$0.

<u>Finance</u>. The Finance Department oversees all the financial matters of the City, including water and sewer billings, accounts payable, tax collection, the budget, and procurement. In addition, the department also oversees the receptionist desk. There are nine employees in the department who tend to these functions. FY 22 request: \$624,443.

<u>Legal</u>. This function is filled by the City Attorney and any specialized counsel that the City needs. The maintenance of the City Code by a codification company is also in this category. FY 22 request: \$86,000.

<u>Planning and Community Development.</u> The City of Aberdeen maintains full planning and zoning authority within its Planning and Community Development Department. Planning functions are carried out by a volunteer planning commission and a City staff of three. In addition, this department oversees grants administration and economic development. The department also has a contracting position to continue its Main Street Alliance initiative started in FY 19. FY 22 request: \$594,277.

<u>Government Building</u>. The City owns and maintains several buildings. The Government Buildings portion of the budget includes the costs to operate and maintain these buildings as well as IT needs and costs. The major priority in this area is to upgrade and maintain the City's IT software and hardware. FY 22 request: \$856,100.

<u>General Government.</u> The General Government area of the budget includes City contributions to our boards and commissions as well as several allied agencies that provide valuable public and quasi-public services to the residents of Aberdeen. Those recipients include the Boys and Girls Club, the Appearance and Preservation Committee, the Economic Development Commission, and the Army Alliance. Costs for community promotions are also included in this category. FY 22 request: \$88,000.

<u>Health and Safety</u>. The general health and safety needs and requirements are budgeted in this category. FY 22 request: \$21,000.

<u>Police.</u> Aberdeen is fortunate to have a top-rated Police Department. In 2015 the Department became CALEA Certified becoming one of the few municipal departments earning this distinction. The

department budgeted for forty-three sworn officers and twenty-three non-sworn personnel including dispatch, and code enforcement. FY 22 request: \$5,101,044.

Fire. Aberdeen is served by a volunteer Fire Department (AFD). The City supports this dedicated group of volunteers. FY 22 request: \$297,328.

<u>Public Works Administration</u>. Public Works provides many services which are paid both through the General Fund and the enterprise funds (water and sewer). Public Works Administration is that area of the budget that includes the personnel that serve all these functions to include the Director of Public Works, Public Works Administrative Assistant, City Engineers, City Inspector and GIS Specialist. FY 22 request: \$567,296.

<u>Public Works Streets.</u> This department provides a multitude of public works services including street maintenance, parks maintenance, sidewalk maintenance, tree maintenance, snow plowing, and storm water system maintenance. FY 22 request: \$1,255,924.

<u>Street Lighting.</u> The City of Aberdeen lights its streets and public areas through a contract with BGE. The utility is responsible for all maintenance and replacement of the streetlights paid for by the City. The City has and expects to continue seeing cost savings in this area due to conversion to LEDs. FY 22 request: \$260,000.

<u>Winter Operations.</u> During snow and ice storms, the Aberdeen Department of Public Works is responsible to plow and treat all City owned streets. Over the past several years the City has invested in its winter operations by adding a new enclosed salt storage facility with over three times the storage capacity of the former storage facility. The City has also upgraded its truck fleet and inventory of salt spreaders over the past several fiscal years. The City places Winter Operations in its budget but does not try to precisely estimate the yearly costs; as such, costs are highly dependent on the frequency and intensity of winter storms. FY 22 request: \$120,000.

<u>Solid Waste</u>. Trash and recycling collections and disposal are in in this portion of the budget. The City owns five trash truck trash trucks, a pickup truck with a lift gate, and a stake body truck to pick up trash, co-mingled recycling, bulk pick-ups, and yard waste. The City has budgeted two additional trash trucks in capital projects and increased staffing from 7.5 FTE positions to 9.0 FTE positions in the FY22 budget. The City services approximately 4,600 residential units on a weekly basis. Collected materials are disposed through Harford County for which the City pays a tipping fee. Aberdeen has seen growth over the past few years that in FY22 the City will modify pickup routes to five days a week and reducing yard waste pick up dates to accommodate growth. The City continues to provide residential collection stops with one 64-gallon standardized collection containers (Toters) for trash and recycling. Residents that exceed this in trash are required to purchase a compatible container and obtain an annual permit of \$60. FY 22 request: \$950,048.

<u>Municipal Separate Storm Sewer Systems (MS4s)</u>. MS4s Operations are intended to meet the City's responsibilities under the current Phase II MS4 Permit, pursuant to a federal mandate that requires the implementation and maintenance of a storm water management system to protect surface and ground water by reducing the amounts of sediments and pollution from municipal storm sewer systems. The City maintains a comprehensive storm sewer collection system consisting of stormwater facilities, inlets, manholes, outfalls and over 58 miles of stormwater pipes. The operations are also responsible to provide treatment and restorations of streams located within the City Limits to meet the Chesapeake Bay Restoration goals. FY 22 request: \$425,083.

<u>Retirement.</u> The City offers several different retirement opportunities for its employees. Most employees are covered under a defined contribution program through the International City/County Management Association Retirement Corporation (ICMA-RC). Sworn police officers participate in a defined benefit program. Also, in this area are the City's costs for Other Post-Employment Benefits (OPEB). FY 22 request: \$1,245,423.

<u>Payroll Related.</u> There are payroll related costs associated with employing over 170 employees, including health insurance, Workman's Compensation Insurance, and FICA. The FY 22 request is \$2,258,397.

<u>Miscellaneous.</u> Costs that do not fit neatly into another department/function are deemed to be Miscellaneous. FY 22 request is \$226,073.

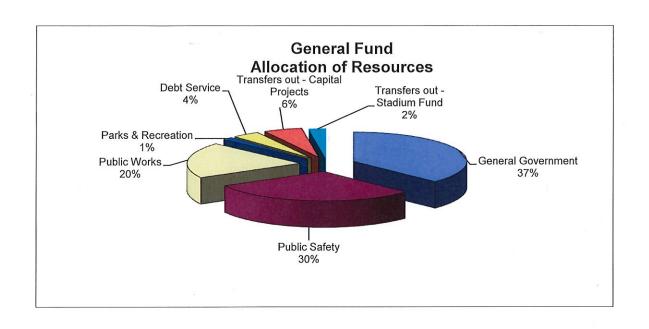

<u>Parks and Recreation.</u> This portion of the budget supports the efforts of the Aberdeen Parks and Recreation Committee, parks maintenance and the capital needs at the Aberdeen Swim Club. The Swim Club is operated, under agreement, by the Boys and Girls Club. FY 22 request is \$271,300.

<u>Debt Service</u>. The City has incurred debt for several capital projects including the City Hall and the Public Works facility. FY 22 request: \$635,608 for principal payments and \$76,917 for interest payments.

<u>Transfers.</u> The City transfers funds to the Capital Projects Fund for capital constructions and purchases. It also transfers funds to the Stadium Fund to support its operations, principally debt service. FY 22 request: \$1,002,000 to the Capital Projects Fund and \$436,482 to the Stadium Fund.

Enterprise Funds

Water Fund

The Water Fund is used to account for the daily operations of the water utilities. The City owns, operates, and maintains a 1.5 MGD (permitted) Water Treatment Plant utilizing 14 wells. The operations also utilize 4 water towers, 4 booster stations, and 92 water main miles to distribute safe drinking water to over 5,000 customers. The City purchases 400,000 gallons of water per day through an agreement with Harford County. The City can increase its purchases from the county up to 900,000 gallons per day, based on operational needs. Its main revenue sources are usage fees and capital connection fees. The capital connection fees are used to maintain existing infrastructure and future capacity. The water rates for FY 22 are: Minimum charge per 3,500 gallons or less of metered water is \$21.70; over 3,500 gallons is \$6.55 per 1,000 additional gallons. These rates reflect a 5% increase over the prior year's rates. The capital connection fee is \$9,000 per equivalent dwelling unit.

Sewer Fund

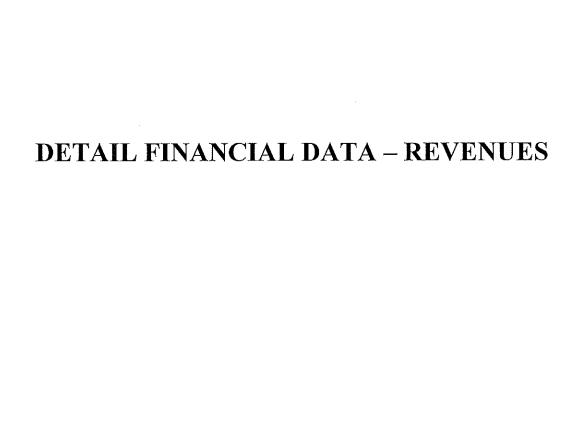

The Sewer Fund is used to account for the daily operations of the wastewater treatment facility. The City owns, operates, and maintains a 4.0 MGD (Permitted) Wastewater treatment Plant to service over 5,000 homes and businesses. The operations utilize 75 sanitary miles and 11 sewer pumping stations to collection waste for processing at the plant. Its main revenue sources are usage fees and capital connection fees. The capital connection fees are used to maintain existing infrastructure and future capacity. The sewer rates for FY 22 are: Minimum charge per 3,500 gallons or less of metered water is \$26.07; over 3,500 gallons is \$7.43 per 1,000 additional gallons. These rates reflect a 5% increase over the prior year's rates. The capital connection fee is \$8,500 per equivalent dwelling unit.

Stadium Fund

The Stadium Fund is used to account for the operation of the Ripken Stadium. Its main funding sources are the Admission and Amusement Tax, and Hotel Tax (transferred from the General Fund).

Description of Proposed Public Works Capital Projects Fiscal Year 2022

General Fund

- <u>Aberdeen Pool Assessment:</u> DPW will use \$100K of a General Funds with a state reimbursable grant to secure architecture and engineering professional services to comply with ADA requirements and upgrades to meet code issues. Within the design, aspects of site layout and upgrades to the existing structures on the property will be addressed as well as mechanical, electrical, and plumbing upgrades. These funds will secure a design, permit, and construction cost estimate.
- Festival Park Electrical (Design): DPW will use \$10K to secure an electrical engineer to conduct an electrical load assessment and develop an electrical upgrade design for Festival Park. The use of the Park has dramatically increased over the past several years and is the focal point of the City for events. It is used for fairs, events, and the electrical system is not sufficiently designed to accommodate all the new uses throughout the year.
- Rock Glenn Park Improvements: The City was awarded a \$400K grant by the Maryland Department of Natural Resources to fund the City's share of improvements to Rock Glenn Park. The proposed improvements include: two multipurpose fields, multi-purpose double-sized court to be used for basketball and pickleball, walking trail and a parking lot.
- <u>Miscellaneous Equipment:</u> DPW utilizes \$20K in General Funds to purchase/replace smaller power equipment such as pressure washers, cut saws, chain saws, concrete mixers, attachments for heavy equipment or diagnostic equipment that are not accounted for in the yearly operating budget.
- <u>VEH-16-32 Unit #40 Brush Chipper (Replacement):</u> DPW will use \$60K in General Funds to replace an existing Chipper. The Equipment is 12 years old and is heavily relied by staff to dispose of large limbs and small trees for general maintenance throughout the City, remove debris from storms, and provides chipper service requests to residents. The chips are used by the WWTP as part of the composting operations.
- <u>Tire Changing Machine (Mechanics Shop):</u> DPW will use \$10K in General Funds to replace/upgrade the current model that is 20 years old. An upgrade is required to meet a larger range of rim/ tire size capability.
- <u>VEH-20-01 2.5 Ton Dump Truck:</u> (Additional) DPW will use \$135K in General Funds to purchase a vehicle for use every day to meet the staff's requirements. Haul stone and spoils more efficiently with more than one truck on jobs. Will save on man hours and down time. This truck would also be utilized to address snow removal in the expanded City footprint.
- <u>VEH-16-62 Unit#107 Trash Truck (Replacement)</u>: DPW will use \$240K in General Funds to replace an existing 2010 Model 15CY trash/recycling truck with a new 25CY truck, this is one of five vehicles in the current City's Environmental Fleet and is the oldest vehicle in the fleet.

- New Trash Truck (Additional): DPW will use \$240K in General Funds to add an additional 25 CY trash/recycling truck, this will increase the fleet size to six vehicles and provide a truck that can be used in rotation with the other trucks that have 25CY capacity to meet the City's needs in servicing an increase of residential stops.
- The following two items are dedicated equipment items required to expand City Maintenance operations to stand up a dedicated stormwater maintenance crew to meet MS4 Permit requirements and general annual storm sewer maintenance. Staff under this operation would still use general purpose dump trucks, pickups, backhoes, and excavators shared across the department.
 - o <u>Portable Pipe Inspection System:</u> (Storm Drain) DPW will use \$90K in General Funds to purchase a portable CCTV system that will be used to inspect storm drain boxes and piping.
 - o <u>Pickup Truck Storm Drain Crew (Additional)</u>: DPW will use \$38K in General Funds to purchase a vehicle to be used to transport crew and carry the Portable CCTV system. Truck will be equipped with a snowplow to help with snow removal.
- <u>Street Resurfacing:</u> DPW will use the \$670K in Maryland Highway User Funds to repave city owned and/or maintained streets. DPW will allocate approximately \$150k within this fund to repair and replace selected sections of curb & sidewalk. The City will use separate contracts to execute these requirements.

Water Fund

- Havre de Grace (HdG)-COA Water Supply Interconnect (Design & Inspection Services): DPW will
 use \$180K in Water Funds to complete the design and provide inspection services for the construction
 of a water transmission line and pump station along the Route 40 corridor between Havre de Grace
 and City of Aberdeen
- <u>HdG Waterline (Construction)</u>: DPW will use \$2.5M to fund for a construction contract to connect a water supply line at Old Robin Hood Road to Beards Hill Extended along Route 40 corridor to receive water from HdG.
- Railbird Pump Station (Construction) DPW will use \$1.0M to fund for a construction contract to construct and install a water booster station to receive water from a water supply line from HdG to boost water into Water Zone 2 because of the new water line construction.
- <u>I-95 Water Tower (Design)</u>: DPW will use \$100K in Water Funds to complete the design and MDE permitting for the Water Tower to support the west side of the City beyond I-95.
- Swan Meadows Water Line Replacement (Design): DPW will use \$100K to fund a design to initiate the replacement of over 8,000 LF of water mains in Swan Meadows. The waterline is made from a clay pipe using asbestos cement which cannot accommodate pressure founds in typical water systems today. Public Works reduces pressure in this section of the system to reduce the number of breaks. Fire Departments also must exercise care in accessing hydrants from these lines as operations can cause catastrophic breaks during an emergency response.
- Production Well Maintenance (WTP 16-10): DPW will use \$45K for overhaul maintenance of two (2) wells. The City has 14 wells to produce water. In FY21, the City overhauled the first two wells, these funds continue the next sets. The overhaul includes pump maintenance and repairs, inspection/repairs of the casing and screens, and remediation of other issues discovered during the inspection phase.
- W/WW Pickup Truck (Additional): DPW will use \$20K in Water Funds to purchase a 50/50 cost share with the Sewer Fund for an additional vehicle for WW/WWTP operations. The vehicle will support daily plant by plant operations to include testing and inspection requirements throughout the distribution system, after hours service calls, and emergency responses. The vehicle will be able to haul equipment such as shovels, picks, long handle valve key, parts, pumps, motors, pallets of chemicals, buffers, hoses, and water and wastewater samples.

Sewer Fund

- WWTP-16-31 Digester Sludge Heat Exchanger Replacement (Construction): DPW will use \$250K in Sewer Funds to complete the installation of two replacement units for the original digester sludge heat exchangers (1980). This 12-month project awarded in October 2020 at a construction cost of \$645K and \$40K in Engineering Inspection Services. The City funded \$450K in FY21 and will carry an unbilled by end of FY21 plus an additional \$250K to complete. The exchangers provide heat to the digestors to break organic solids, remove pathogens, and decompose them into stable substances for disposal to meet compliance regulation. The new units will include an upgrade from oil to natural gas.
- <u>VEH 16-46 Unit #88 Trommel Screen:</u> DPW will use \$221K in Sewer Funds. The cost is distributed 70% City and 30% APG for the new unit (\$315K). The current screen was purchase used and has been in constant operations for approximately 15 years since purchase. The screen is mandated for use in composting operations with the MDA/MDE permits for the facility. The replacement screen will be movable so it may be moved under the compost pavilion during weather events. The current unit is deteriorating due to age.
- <u>UTL-16-10 Crestmont Sewer Main Replacement:</u> DPW will use \$300K in Sewer Funds. The Sewer main is non-reinforced concrete which is severely deteriorated due to hydrogen sulfide damage. It has several large holes throughout the main. The main could fail and cause an emergency response by our DPW resulting in a loss of service to our residents. Replace from SMH-0456 to SMH-0042. This will have to be a phased project for the entire street.
- WWTP-16-04 Install Plant Auxiliary Power System (Design) DPW will use \$100K in Sewer Funds to secure an engineering firm to design a backup system for Process Control. The design will calculate loads for a generator to power the grit, primary, 1st stage, 2nd stage, and solids processing buildings at the WWTP. This requirement will allow essential equipment to operate during a utility outage to maintain NPDES permit regulations. 1978 era electric substation for the WWTP needs full evaluation and code updates.
- <u>UTL-19-01 Swan Creek Force Main Replacement (Construction)</u>: DPW will use \$275K in Sewer Funds to secure a contractor to provide a new section of the Force Sewer Main after failure of a section under Swan Creek. DPW was unable to execute the project in FY21, inability in obtaining approved permits from state agencies due to reduced services during COVID.
- WWTP-17-01 Digester Cleaning (Evaluate Methane Flare System Design): DPW will use \$50K in Sewer Funds to bring in a contractor to assist staff in a major overhaul and cleaning of both digestors. The digesters are also full of rags and debris from the lack of adequate screening prior to the new headwork screen install. Staff currently must open and clean three digested pumps twice per 24 hours to clean the pumps. Continuous clogging of the pumps hinders proper digester operations and maintain mandated 98-degree temperature (f). Once access is made to the digestor, a firm could evaluate the methane flare system. The system is currently offline which could lead to MDE violation under the Clean Air Act. The Methane system is mostly original parts and accessories installed in the late 1970s.

- <u>Cranberry Run PS Electric Upgrades:</u> DPW will use \$35K in Sewer Funds to relocate all high voltage equipment to an outside weatherproof cabinet. Currently, all 480v/240v control panels are in the dry well. The dry well has the potential to flood which would than take the entire station offline. This station serves the PEPSICO plant which is 24-hour operation. The upgrades will move all high voltage panels and VFDs to an outside weatherproof cabinet.
- <u>Utility Terrain Vehicle</u>: DPW will use \$10K to purchase a second UTV at the wastewater plant. In 2010, WWTP purchased two "golf carts." Both were taken offline in 2018 for safety reasons. One unit was replaced in 2019 and upgrade to a UTV as the golf carts were not rated for the heavy use and capacity requirements. Due to budgets, the second unit has not been replaced. The UTV are used during all shifts to transport samples, supplies within the facility, and transports parts, lubricants etc. for preventative maintenance and repairs by plant mechanics. Continue failure to fund requires staff to seek work arounds with one UTV and pickup trucks that are often in demand for other operations.
- <u>W/WW Pickup Truck (Additional)</u>: DPW will use \$20K in Water Funds to purchase a 50/50 cost share with the Water Fund for an additional vehicle for WW/WWTP operations. The vehicle will support daily plant by plant operations to include testing and inspection requirements throughout the distribution system, after hours service calls, and emergency responses. The vehicle will be able to haul equipment such as shovels, picks, long handle valve key, parts, pumps, motors, pallets of chemicals, buffers, hoses, and water and wastewater samples.

Stadium Fund

- <u>Facility Assessment:</u> DPW will use \$200,000 in General Funds to cover the facility assessment of Ripken Stadium in conformance with the Ripken Stadium Settlement Agreement.
- <u>Capex Funds</u>: DPW will use \$300,000 in General Funds to provide a contribution to the Capex Fund as specified in the Ripken Settlement Agreement. This is a yearly contribution due October 1 of each year. The funds are intended to be allocated as follows:
 - o Picnic Deck Upgrades: DPW will use \$60,000 to cover upgrades to the picnic area of the stadium to bring the facility into code compliance.
 - o DPW will use \$50,000 to cover repairs and upgrades to the existing fire protection system of the stadium.
 - o DPW will use \$120,000 to cover replacement of 2 HVAC rooftop units.
 - o Construction & Maintenance: DPW will use \$70,000 to cover contingency items to be used in normal capital maintenance items that arise at the stadium over the course of the year. This includes plumbing, electrical, fire safety and other areas of standard maintenance that are the City's responsibility under the Concession Agreement.
