Introduction

A municipal budget is far more than a financial document; it reflects the priorities and key objectives set by the municipality for the next twelve to eighteen months. So, when examining the budget, one must not simply look at the column of numbers on a page but also try to see what the municipality wishes to accomplish over the next year. The budget provides some explanations, by department/function, of what the City of Aberdeen wishes to concentrate on in Fiscal Year 2025.

There are two categories of funds.

1. Governmental Funds, consisting of the General Fund, and Capital Projects Fund.

The General Fund is used to account for all government functions not required to be separately accounted for. The Capital Projects Fund accounts for the costs of construction and other capital purchases.

2. Enterprise Funds, consisting of the Water Fund, Sewer Fund, and Stadium Fund.

The enterprise funds are used to account for operations that are operated in a manner similar to private businesses, where the intent of the governing body is that the costs, including depreciation, of providing services to the general public on a continuing basis be recovered, primarily, through user charges.

The Budget are four separate budgets; the General Fund (Operating and Capital) supported by tax revenues and fees, the Water Fund supported by water charges, the Sewer Fund supported by sewer charges, and the Stadium Fund for Aberdeen's municipally owned Ripken Stadium, partially supported by transfers from the General Fund.

It should be mentioned that the City provides most of the key municipal services with the key objective of providing them well. The proposed budgets will maintain the quality of services expected by the community.

The budget for FY 2025 is \$56 million. About \$27.6 million or 49.2% of the budget is for the self-supporting activities of the City's enterprise funds which focus on city-related business operations.

Budget Summary by Fund

Fund	FY 2024 Working Appropriation	FY 2025 Request	Change Incr (Decr)	% Change
General Fund	24,007,627	21,363,177	(2,644,450)	-11.0%
Capital Projects Fund	8,790,897	7,155,415	(1,635,482)	-18.6%
Water Fund	13,454,768	15,589,114	2,134,346	15.9%
Sewer Fund	10,253,380	11,299,071	1,045,691	10.2%
Stadium Fund	588,800	689,300	100,500	17.1%
Grand Total	57,095,472	56,096,077	(999,396)	-1.8%

Budget Discussion

General Fund Operating

Revenues

Property Taxes. The assessable bases for Real and Personal Property Taxes are provided by the State, which the City uses to generate the tax bills. The Real Property Tax rate for the FY 2025 budget is \$0.625 per \$100 of assessable base. The Personal Property Tax rate is \$1.70 per \$100 assessable base. Property taxes are projected to be \$12,925,882.

Other Taxes. This category consists of Franchise tax on cable companies, Mobile Home tax on mobile home parks, and Utility tax on utility poles and conduit lines placed within the City by electric and telephone companies. Revenues from other taxes are projected to be \$246,798.

State Shared Revenue. In this category are Income Tax, and Highway User Revenues (HUR). State Shared Revenues are projected to be \$3,009,415.

Licenses and Permits. This category includes, but is not limited to, Traders Licenses, Grading and Building Permits. Revenues from this category are projected to be \$128,750.

Police Grants. State Aid for Police Protection and Special Patrols are included in this category. The State allocates funds to the County based on population density, net taxable income, assessable base, and per capita police expenditures. The funds are divided between the County and municipalities on the basis of relative police expenditures for the immediately preceding fiscal year. The Aberdeen Police Department performs special patrols where it occasionally participates in joint operations with the State and Federal governments; it also patrols certain County and business premises. The costs of these patrols are reimbursed. Police Grants are projected to be \$545,683.

County Shared Revenue. The two major items in this category are Police Tax Differential and Hotel Tax. Aberdeen's share of the Hotel Tax is projected to be \$850,000. The Police Tax Differential is revenue returned to the City by the County to compensate for police services it provides in lieu of services that would otherwise be provided by the County. County Shared Revenues are projected to be \$2,417,092.

Grants. This category includes grants from the County, State, and Federal governments that are not reported as shared revenues. The budget for this category is \$151,000.

Miscellaneous Income. This category includes all other revenue sources that could not fit into any of the preceding categories. APG Contract Fees make up about 61% of this category. Miscellaneous Revenues are projected to be \$1,627,000.

Appropriation of Fund Balance. The City will be appropriating \$311,556 from Unassigned Fund Balance to fund capital projects and Stadium Fund capital expenses.

General Fund Revenue Sources

Description	Amount	% of Budget
Property Taxes	12,925,882	61%
Other Taxes	246,798	1%
State Shared Revenue	3,009,415	14%
Licenses and Permits	128,750	1%
Police Grants	545,683	3%
County Shared Revenue	2,417,092	11%
Miscellaneous Income	1,627,000	8%
Grants	151,000	1%
Appropriation of Fund Balance	311,556	1%
Total Revenues	21,363,177	100%

Expenditures

Legislative. The legislative portion of the budget pertains to the activities of the Mayor and City Council. Included in this area are their salaries, training and travel expenses and memberships in State and national municipal organizations. FY 25 request: \$196,685.

Executive. The executive portion of the budget supports the activities of the City Administrator, City Clerk, Human Resources Director, IT Coordinator, Safety Director, and Administrative Assistant. FY 25 request: \$1,408,710.

Elections. No election is scheduled for next year. FY 25 request: \$0.

Finance. The Finance Department oversees all the financial matters of the City, including water and sewer billings, accounts payable, tax collection, the budget, and procurement. In addition, the department also oversees the receptionist desk. There are nine employees in the department who tend to these functions. FY 25 request: \$768,586.

Legal. This function is filled by the City Attorney and any specialized counsel that the City needs. The maintenance of the City Code by a codification company is also in this category. FY 25 request: \$116,000.

Planning and Community Development. The City of Aberdeen maintains full planning and zoning authority within its Planning and Community Development Department. Planning functions are carried out by a volunteer planning commission and a City staff of three. In addition, this department oversees grants administration and economic development. The department also has two contracting positions to continue its Main Street Alliance initiative started in FY 19. FY 25 request: \$632,909.

Government Building. The City owns and maintains several buildings. The Government Buildings portion of the budget includes the costs to operate and maintain these buildings as well as IT needs and costs. The major priority in this area is to upgrade and maintain the City's IT software and hardware. FY 25 request: \$1,041,500.

General Government. The General Government area of the budget includes City contributions to our boards and commissions as well as several allied agencies that provide valuable public and quasi-public services to the residents of Aberdeen. Those recipients include the Boys and Girls Club, the Economic Development Commission, and the Army Alliance. Costs for community promotions, and certain special programs are also included in this category. FY 25 request: \$85,000.

Health and Safety. The general health and safety needs and requirements are budgeted in this category. FY 25 request: \$16,500.

Police. Aberdeen is fortunate to have a top-rated Police Department. The department is CALEA Certified, becoming one of the few municipal departments earning this distinction. The department budgeted for forty-four sworn officers and twenty-four non-sworn personnel including dispatch, and code enforcement. FY 25 request: \$8,377,390.

Fire. Aberdeen is served by a volunteer Fire Department (AFD). The City supports this dedicated group of volunteers. FY 25 request: \$341,186.

Public Works Administration. Public Works provides many services which are paid both through the General Fund and the enterprise funds (water and sewer). Public Works Administration is that area of the budget that includes the personnel that serve all these functions to include the Director of Public Works, Public Works Administrative Assistant, City Engineers, City Inspector and GIS Specialist. FY 25 request: \$1,457,857.

Public Works Streets. This department provides a multitude of public works services including street maintenance, parks maintenance, sidewalk maintenance, tree maintenance, snow plowing, and storm water system maintenance. FY 25 request: \$1,676,604.

Street Lighting. The City of Aberdeen lights its streets and public areas through a contract with BGE. The utility is responsible for all maintenance and replacement of the streetlights paid for by the City. The City has and expects to continue seeing cost savings in this area due to conversion to LEDs. FY 25 request: \$333,500.

Winter Operations. During snow and ice storms, the Aberdeen Department of Public Works is responsible to plow and treat all City owned streets. The City operates and maintains a covered storage facility to ensure salt supplies are ready for application. The facility typically has storage capacity for multiple storms. The City maintains and upgrades its truck fleet as needed with plows and salt spreaders to ensure that all areas have coverage during storms. The City places Winter Operations in its budget but does not try to precisely estimate the yearly costs; as such, costs are highly dependent on the frequency and intensity of winter storms. FY 25 request: \$60,000.

Solid Waste. Trash and recycling collections and disposal expenditures are covered in this portion of the budget. The City owns six trash trucks, a pickup truck with a lift gate, to pick up trash, co-mingled recycling, bulk pick-ups, and yard waste. The City has budgeted for the replacement of one trash truck and maintains nine full-time positions in the FY25 budget. The City services approximately 5,000 residential units on a weekly basis, Monday through Friday. Collected materials are disposed through Harford County for which the City pays a tipping fee. Aberdeen has seen growth over the past few years and the Department is once again approaching operational capacity. Future growth will require new operational strategies. The City provides residential collection stops with one 64-gallon standardized collection container for trash and recycling. Residents exceeding the container size in trash are required to purchase a second compatible container and obtain an annual permit. Yard waste pickups are included in the budget. FY 25 request: \$1,183,642

Municipal Separate Storm Sewer Systems (MS4s). MS4s Operations are intended to meet the City's responsibilities under the current Phase II MS4 Permit, pursuant to a federal mandate that requires the implementation and maintenance of a storm water management system to protect surface and ground water by reducing the amounts of sediments and pollution from municipal storm sewer systems. The City maintains a comprehensive storm sewer collection system consisting of stormwater facilities, inlets, manholes, outfalls and over 58 miles of stormwater pipes. The operations are also responsible to provide treatment and restorations of streams located within the City Limits to meet the Chesapeake Bay Restoration goals. FY 25 request: \$279,770.

Retirement. The City offers several different retirement opportunities for its employees. Most employees are covered under a defined contribution program through the International City/County Management Association Retirement Corporation (ICMA-RC). Sworn police officers participate in a defined benefit program. Also, in this area are the City's costs for Other Post-Employment Benefits (OPEB). Beginning in FY 25, these costs are budgeted under their allocated departments.

Payroll Related. There are payroll related costs associated with employing over 170 employees, including health insurance, Workman's Compensation Insurance, and FICA. Beginning in FY 25, these costs are budgeted under their allocated departments.

Miscellaneous. Costs that do not fit neatly into another department/function are deemed to be Miscellaneous. FY 25 request is \$243,800.

Parks and Recreation. This portion of the budget supports the efforts of the Aberdeen Parks and Recreation Committee, parks maintenance and the capital needs at the Aberdeen Swim Club. The Swim Club is operated, under agreement, by the Boys and Girls Club. FY 25 request is \$191,600.

Debt Service. The City has incurred debt for several capital projects including the City Hall and the Public Works facility. FY 25 request: \$237,615 for principal payments and \$62,209 for interest payments.

Transfers. The City transfers funds to the Capital Projects Fund for capital constructions and purchases. It also transfers funds to the Stadium Fund to support its operations. FY 25 request: \$2,213,415 to the Capital Projects Fund and \$438,700 to the Stadium Fund.

General Fund Allocation of Resources

Enterprise Funds

Water Fund

The Water Fund is used to account for the daily operations of the water utilities. The City owns, operates, and maintains a 1.5 MGD (permitted) Water Treatment Plant utilizing 14 wells. The operations also utilize 4 water towers, 4 booster stations, and 92 water main miles to distribute safe drinking water to over 5,000 customers. The City purchases 600,000 gallons of water per day through an agreement with Harford County with the ability to increase up to 900,000 gallons per day, based on operational needs. The City has entered into an agreement with Havre de Grace to purchase 500,000 gallons per day up to 900,000 gallons per day, based on operational needs. The City completed the construction of a new booster station in Fiscal Year 2024 at Railbird Alley. A new booster station at Long Drive is under construction and scheduled for completion in Fiscal Year 2025. A water tower near I-95 and Rt 22 is scheduled for construction in Fiscal Year 2025. Construction is expected to take 12-24 months to complete. The fund's main revenue sources are usage fees and capital connection fees. The capital connection fees are used to maintain existing infrastructure and future capacity. The City has also secured a State grant to design an upgrade to the water plant to address the "PFAS" and other "Forever chemicals" found in the water supply system. The water rates for FY 25 are: Minimum charge per 3,500 gallons or less of metered water is \$23.92; over 3,500 gallons is \$7.22 per 1,000 additional gallons. The capital connection fee is \$9,000 per equivalent dwelling unit.

Sewer Fund

The Sewer Fund is used to account for the daily operations of the wastewater treatment facility. The City owns, operates, and maintains a 4.0 MGD (Permitted) Wastewater treatment Plant to service over 5,000 homes and businesses. The operations utilize 76 sanitary miles and 11 sewer pumping stations to collect waste for processing at the plant. This year's capital efforts continue to support the construction and replacement of the existing methane & gas flare system, the design of two pump stations and increasing the size of existing sewer interceptor lines to support development. The fund's main revenue sources are usage fees and capital connection fees. The capital connection fees are used to maintain existing infrastructure and future capacity. The sewer rates for FY 25 are: Minimum charge per 3,500 gallons or less of metered water is \$28.75; over 3,500 gallons is \$8.19 per 1,000 additional gallons. The capital connection fee is \$8,500 per equivalent dwelling unit.

Stadium Fund

The Stadium Fund is used to account for the operation of the Ripken Stadium. Its main funding source is the Admission and Amusement Tax, and transfers from the General Fund, if necessary.

Enterprise Funds Summary

Description	Water Fund	Sewer Fund	Stadium	Total
Revenues:				
Operating Revenue	3,608,528	4,285,945	250,000	8,144,473
Non-Operating	5,878,700	4,685,700	600	10,565,000
Appropriation of Net Position (Reserve) - (see Note)	6,101,887	2,327,425	-	8,429,312
Transfer in	-	-	438,700	438,700
Total Revenues	15,589,114	11,299,071	689,300	27,577,485
Expenses:				
Cost of Service	2,827,104	3,774,229	-	6,601,333
Other Expenses	443,274	412,874	689,300	1,545,448
Debt Service	560,236	491,968	-	1,052,203
Capital Expenditures	11,758,500	6,620,000	-	18,378,500
Total Expenses	15,589,114	11,299,071	689,300	27,577,485

Note:

The Appropriation of Net Position (Reserve) is to fund non-federally funded capital projects.

		<u>Stormwater/ MS4s:</u>
	1	MS4 Projects (FY24 Design/FY25 Construct) - Stream Restoration Projects
		<u>Streets (Highway User Revenue Funded):</u>
	1	Street Resurfacing (Highway User Revenue funded) - Misc Locations
	2	Sidewalk Connectivity Projects
	3	Roberts Way Phase II Repaving UTL 21-13 Support
		<u>DPW Equipment:</u>
	1	Miscellaneous Equipment (Equipment Items not accounted for in O&M Budget)
	2	VEH 16-28 Unit #33 Front End Loader (Purchase - Replace)
	3	VEH-16-23 Unit #26 1.5 Ton Dump Truck (Purchase - Replace)
	4	VEH-16-65 Unit #112 1-Ton Pickup Truck (Purchase - Replace)
WATER FUND		Total - \$11,533,500
		<u>American Recovery Plan Act Projects:</u>
	1	Long Drive Booster Station (FY23 & FY24 Construct)
	2	Heat Ctr Booster Pump Station Upgrade [Design (1 yr) / Construct (1 yr)]
		<u>MDE Grant Projects:</u>
	1	WTP 20-01 Raw Water Filtration (FY25 Design)
	2	UTL-22-16 Lead & Copper Rule (Data Collection/Inventory) 50/50 Grant Fund
		<u>Other Projects:</u>
	1	UTL-21-23 Roberts Way - Phase II (Construct)
	2	WTP-16-14 1-95 EWT (FY25-FY26 Construct)
	3	UTL-16-27 Swan Meadows W/S/SS Replacement (Construct - 2 Yr)
	4	VEH-16-47 Unit #91 Maintenance Flat Bed Mechanics Truck (Replace) [50-50 W/WW]
	5	Water System Model Rebuild - Engineering Support
	6	UTL-24-01 600 Block Law St. Water Main Replacement (Parts Only)
	7	Well #7 Replace Discharge Line 8" (Parts and Contract Support)
SEWER FUND		Total - \$6,620,000
		<u>American Recovery Plan Act Projects:</u>
	1	WWTP-17-01 Methane & Flare System Replacement (FY24 & FY 25 Construct)
	2	Carsons Run & Eagles Rest SPS Upgrade (Construct - 2 Yr)
		<u>Other Projects:</u>
	1	UTL-16-27 Swan Meadows W/S/SS Replacement (Construct)
	2	VEH-16-47 Unit #91 Maintenance Flat Bed Mechanics Truck (Replace) [50-50 W/WW]
	3	Route 22 Sewer Line Upgrade - Design
	4	Lateral Launch Camera System Retrofit for Camera Truck

FY 2025 BUDGET SUBMISSION		
LIST OF CAPITAL PROJECTS		
FUND	No	DESCRIPTION
	5	WWTP 24-01 Clarifier Steel Coating Rehabilitation, final clarifier one. (Installed 1981)
	6	WWTP 17-02 Replace Spring Valley Sps Generator (Manufactured 1987)
	7	WWTP 16-22 Main pump station, pump base remediation (Installed 1981)
	8	WWTP Labatory: Replace hooded 12 Burner TKN Unit (Total Kjeldahl Nitrogen) 50% Shared with APG Water/Sewer Contract
	9	Sanitary System Model Rebuild - Engineering Support
	10	WWTP - Install New Pole Barn (Phase II Demo Lime Storage Facility)
	11	Remove 1980 era (Offline Equipment) Multi-Year Project
	12	Sanitary Sewer Rehabilitation - Maintenance Contract
STADIUM FUND		Total - \$450,000
	1	Capex Fund (Ripken Settlement Agreement - \$450K)

Description of Proposed Capital Projects Fiscal Year 2025

General Fund

General Government

1. **MARC Train Station Project:** The City was awarded \$4.0 million in the Fiscal Year 2023 Consolidated Appropriations Act as a Congressional Community Funding Project (“FTA Funds”) for the Aberdeen Transit Oriented Development – Station Square Project for Phase I. These funds will complete the first phase of funding for an estimated \$55 million project that removes existing physical barriers, which have created accessibility challenges and increases connectivity at the Aberdeen Train Station (“the Station”). The proposed improvements will be ADA accessible and increase public safety and mobility to the Aberdeen MARC/Amtrak Train Station. Phase I of the TOD Station Square Project includes a National Environmental Policy Act (NEPA) Analysis with a Phase II Environmental Study, Geotechnical Report to assess subsurface conditions and undertake soil borings, and 30% Preliminary Architectural and Engineering Design Services. There is an 80% (federal) /20% (city) match requirement.

The City was also awarded \$800,000 from the U.S. Department of Transportation’s (USDOT) Fiscal Year 2023 Reconnecting Communities Pilot Grant Program for the Aberdeen Transit Oriented-Station Square Improvements Project. These funds will complete the second phase of funding for an estimated \$55 million project that removes existing physical barriers, which have created accessibility challenges and increases connectivity at the Aberdeen Train Station (“the Station”). This planning grant will establish pre-construction documents to facilitate connectivity through an underpass and promote redevelopment surrounding the train station. Grant activities include completion of 60% engineering and design plans, environmental feasibility study, and establish future right-of-way needs. There is an 80% (federal)/ 20% (city) match requirement.

DPW Equipment

1. **Miscellaneous Equipment (Purchase):** DPW intends to use General Funds to purchase/replace smaller power equipment such as pressure washers, cut saws, chain saws, concrete mixers, attachments for heavy equipment or diagnostic equipment that are not accounted for in the yearly operating budget. This year’s budget also includes the purchase of a Jackhammer attachment for the new excavator purchased in FY24 and tall heavy duty jackstands for the mechanic shop.
2. **VEH-16-28 Unit 33 a Front-End Loader (Purchase - Replace):** DPW intends to use General Funds to replace the existing 2015 Front-End Loader with a larger Loader. The existing loader is undersized for our Maintenance Division needs and has been plagued with costly repairs. It is used for material handling such as salt, stone, and spoils removal. It also helps with lifting/moving larger objects. The loader is expected to serve the department for 10+ years.
3. **VEH-16-23 Unit 26 a 1.5-Ton Dump Truck (Purchase - Replace):** DPW intends to use General Funds to replace an existing 2011- 1.5-Ton Dump Truck for daily work to be used for transporting materials, salting & plowing, towing, transporting equipment & staff. Due to the daily use of the vehicle in a myriad of uses by the Maintenance Division, the unit is at the end of its life cycle. Continued repairs will become more expensive with overhauls and increased replacement of parts that impact the maintenance budget should the vehicle remain in the fleet’s service.

4. VEH-16-65 Unit 112 a 1-ton Pickup Truck (Purchase -Replace): DPW intends to use General Funds to replace an existing 2012- 1-ton Pickup Truck used for daily work to include towing, transporting materials, equipment, plowing, and staff. Due to the daily use of the vehicle in a myriad of uses by the Maintenance Division, the unit is at the end of its life cycle. Continued repairs will become more expensive with overhauls and increased replacement of parts that impact the maintenance budget should the vehicle remain in the fleet's service.

Stormwater

1. MS4 Projects (Design): DPW intends to use General Funds to supplement County MS4 Funds to support the continuation of stream restoration designs to meet the City's Phase II MS4 Permit, Chesapeake Bay Restoration requirements.

Parks and Recreation

1. PARK-23-14 Elm St Basketball Court Resurface & New Fence (Construct): DPW intends to use General Funds to remove the existing court and fence, remove trees and cleanup site. Input from residents would finalize the scope for any upgrades to the site after the removal of the items.
2. PARK 23-04 Replace Park Pavilion Roof (Festival Park): DPW intends to use General Funds to replace Pavilion Roof. The roof leaks and materials are rotted out.

Streets

1. Sidewalk Connectivity Improvements (Construct): DPW intends to use a portion of Maryland Highway User Revenue Funds to install new sidewalks within the City's sidewalk network where there are none. The focus of these improvements is to address areas first where the lack of sidewalks (none or dead ending in the mid-block) impacts the highest number of users (closest to schools, churches, shopping centers).
2. Roberts Way Phase II (Maintenance): DPW intends to use Maryland Highway User Funds to fund the repaving of Roberts Way for Phase II. Water funds will be used to fund the replacement of the water line and trench work. The roadway will require paving and these funds will be used to address this need.
3. Street Resurfacing (Maintenance): DPW intends to use Maryland Highway User Revenue Funds to repave city owned and/or maintained streets, and repair and replace selected sections of curb & sidewalk.

Water Fund

American Rescue Plan Act (ARPA) Projects

1. Long Drive Booster Station (Construct): DPW intends to use ARPA Funds to finish construction of a water booster station in support of a new water supply line across I-95 at the end of Long Drive. Project was awarded in FY23 and will be complete in FY25.
2. Heat Ctr Booster Pump Station Upgrade (Design/Construct): DPW intends to use ARPA Funds to design an upgrade of the existing HEAT Center BPS to support the I-95 Water Tower Project.

MDE Grant Projects

1. WTP 20-01 Raw Water Filtration (Design): DPW intends to use Enterprise Water Funds (via reimbursement) through a MDE Grant to design an upgrade to the Water Plant Filtration system to meet new EPA standards. The plant lacks the filtration necessary to address Volatile organic compounds (VOC) and Per-and Polyfluoroalkyl Substances (PFAs/PFOA).
2. UTL-22-16 Lead and Copper Rule (Data Collection/Inventory): DPW intends to use Enterprise Water Funds via reimbursement through a MDE Grant for professional services to assist in the research and acquirement of historical records relevant to all City development of water infrastructure in Aberdeen. The project will support the development of an Initial Lead Service Line Inventory by documenting materials used during construction of the City's water system throughout various periods. This inventory is required to meet an EPA deadline of October 2024.

Other Projects

1. UTL-21-23 Roberts Way Phase II (Construct): DPW intends to use Enterprise Water Funds to replace the remaining section of an existing waterline. A portion of Roberts Way (MD22 and Beards Hill Road) and a section along Beards Hill consisting of 4200 LF was replaced in FY24. This project would complete the remaining section in the Unit Block of Robert's way between MD 22 to Jennifer Lane. The existing waterline is functionally failing with a high amount of tuberculation which constricts flow. The restriction not only hinders distribution and fire-flow volumes, but severely decreases the ability to maintain proper disinfection and chlorine residual.
2. WTP-16-14 I-95 EWT (FY23 Design/FY24 & FY25 Construct): DPW intends to use Enterprise Water Funds to construct an I95 Water Tower to support the west side development. The designated site was approved for transfer to the City by the Maryland Board of Public Works in April. Construction is expected to take 12-24 months.
3. UTL-16-27 Swan Meadows W/S/SS Replacement (Construct): DPW intends to use Enterprise Water Funds to replace 8,000+ LF of water mains in Swan Meadows. The waterline is at the end of service life. Construction is estimated to take 2 years to complete.
4. VEH-16-47 Unit#91 Maintenance Flat Bed Mechanics Truck [50-50 W/WW]: DPW intends to use Water Enterprise and Sewer Enterprise Funds split 50/50 to replace Unit #91. Unit #91 is a 2008 maintenance vehicle used by the W/WW plant mechanics for both water and sewer operations. With new booster stations and upgraded sewage pump stations the lift crane on the unit is now undersized

to lift the new and updated equipment. The new unit will also be equipped with additional tool storage, a pneumatic system, lighting for night work and a portable welder.

5. Water System Model Rebuild: DPW intends to use Water Enterprise Funds to engage with an engineering firm to create an all-new model of the City's water and sewer systems. This operation would be a turn-key operation to conduct all field surveys, testing, mapping, analysis, monitoring required to calibrate a new model of each utility system from scratch using current real-world data. The product would be an accessible model that City staff can view and use to our benefit on in-house infrastructure projects as well as development projects.
6. UTL-24-01 600 Block Law St Water Main Replacement (Procurement): DPW intends to use Water Enterprise Funds to replace approximately 250 LF of existing 2-inch water main. DPW intends to procure the parts and have work done by in-house Maintenance Staff
7. Well #7 Relace Discharge Line 8" (Contract): DPW intends to use Water Enterprise Funds to replace a section of failing iron pipe from the well house pump discharge to the raw water main. Efforts will be made first to procure the parts and have the work done by in-house staff with contract support.

Sewer Fund

American Rescue Plan Act (ARPA) Projects

1. WWTP-17-01 Methane & Flare System Replacement (Construct): DPW intends to use ARPA Funds to replace the Methane Flare System. The project is under construction and expected to be completed in FY25.
2. Carsins Run & Eagles Rest Sewer Pump Station Upgrade (Design): DPW intends to use ARPA Funds to upgrade two (2) lift stations to support new development. This need is outlined in various APFO agreements between the developers and the City. The design will be completed in FY 25 with construction scheduled for FY25 & FY26.

Other Projects

1. UTL-16-27 Swan Meadows W/S/SS Replacement (Construct): DPW intends to use Sewer Enterprise Funds to replace over 8,000 LF of sewer mains in conjunction with a water main upgrade in Swan Meadows. Construction is estimated to take 2 years to complete.
2. VEH-16-47 Unit#91 Maintenance Flat Bed Mechanics Truck [50-50 W/WW]: DPW intends to use Sewer Enterprise and Water Enterprise Funds split 50/50 to replace Unit #91. Unit #91 is a 2008 maintenance vehicle used by the W/WW plant mechanics for both water and sewer operations. With new booster stations and upgraded sewage pump stations the lift crane on the unit is now undersized to lift the new and updated equipment. The new unit will also be equipped with additional tool storage, a pneumatic system, lighting for night work and a portable welder.
3. Route 22 Sewer Line Upgrade (Design): DPW intends to use Sewer Enterprise Funds to upgrade the sewer lines to support new development. This need is outlined in various APFO agreements between the developers and the City.

4. Lateral Launch Camera System Retrofit for Camera Truck (Procurement): DPW intends to use Sewer Enterprise Funds to purchase Lateral Launch Camera System Retrofit for existing Sewer Camera. A lateral launch camera is a video inspection device used to inspect lateral lines branching out from the main line. The current system only allows us to visually identify the location of a lateral sewer line.
5. WWTP 24-01 Clarifier Steel Coating Rehabilitation, final clarifier one (Installed 1981): DPW intends to use Sewer Enterprise Funds to seek contractor support for the remediation and new coatings for the steel structure of the clarifier. The original coatings from the 1980s is severely failing and is causing corrosion to the steel structures. This will be the first of eight clarifiers that will require this upgrade.
6. WWTP 17-02 Replace Spring Valley Sewer Pump Station Generator (Manufactured 1987): DPW intends to use Sewer Enterprise Funds to seek contractor support for the replacement of the generator. Parts for the ATS (automatic transfer switch) are no longer available due to the age of the generator.
7. WWTP 16-22 Main pump station, pump base remediation (Installed 1981): DPW intends to use Sewer Enterprise Funds to seek contractor support for the replacement of the four main sewage pumps bases at the WWTP. This is original equipment, and all four pump bases are failing. Failure of a pump base may lead to flooding of the main pump station pump room and cause significant damage to the pump. This will lead to possible violations with the facilities EPA NPDES permit and monetary fines from MDE.
8. WWTP Laboratory: Replace hooded 12 Burner TKN Unit (Total Kjeldahl Nitrogen) 50% Shared with APG Water/Sewer Contract: DPW intends to use Sewer Enterprise Funds in conjunction with a share from the APG Water/Sewer contract to purchase, replace and install unit to support Laboratory operations to meet compliance requirements.
9. Sanitary System Model Rebuild - Engineering Support: DPW intends to use Sewer Enterprise Funds to engage with an engineering firm to create an all-new model of the City's water and sewer systems. This operation would be a turn-key operation to conduct all field surveys, testing, mapping, analysis, monitoring required to calibrate a new model of each utility system from scratch using current real-world data. The product would be an accessible model that City staff can view and use to our benefit on in-house infrastructure projects as well as development projects.
10. WWTP - Install New Pole Barn/Engineer Building (Phase II Demo Lime Storage Facility): DPW intends to use Sewer Enterprise Funds to install a storage building with the removal of a silo building at the WWTP Complex. In FY24, the City was successful in the removal of the 1980 era Lime Silo Building. Originally, the intent was to repurpose the existing building for storage. The decay was too great, and the entire facility was removed instead. Phase II would allow for the procurement/installation of a building and electrical to provide on-site storage.
11. Remove 1980 era (Offline Equipment) Multi-Year Project: DPW intends to use Sewer Enterprise Funds to continue the removal of outdated and inactive equipment that is broken, hazardous, or occupies space that in the plant which were not removed under previous upgrades. The intent of this project is to secure contracts to remove broken and obsolete equipment to reclaim space.
12. Sanitary Sewer Rehabilitation (Maintenance Contract): DPW intends to use Sewer Enterprise Funds to establish an annual construction/maintenance contract for sanitary sewer rehabilitation. This contract shall be structured similarly to other maintenance contracts like Paving, Landscaping, Janitorial or Generator Maintenance. Routine sewer maintenance operations have identified thousands of feet of sewer mains, laterals and several manholes that would require rehabilitation.

This would also allow a cost-effective method to repair problem sewer assets as they are discovered through normal operations.

Stadium Fund

1. Capex Funds: DPW allocates General Funds to the Stadium Fund to contribute to the Capex Fund as specified in the Ripken Settlement Agreement. This is a yearly contribution due October 1 of each year.
