October 31, 2011

To the Honorable Mayor, City Council and Citizens of the City of Aberdeen:

The City of Aberdeen's comprehensive annual financial report for the year ended June 30, 2011, is hereby submitted. City ordinances and State statutes require that the City of Aberdeen issue annually a report on its financial position and its activities. An independent firm of certified public accountants is selected by the City Council. Responsibility of both accuracy of the data, and the completeness and fairness of the presentation, including all disclosures, rests with the City's management. To the best of our knowledge and belief, the enclosed data are accurate in all material respects and are reported in a manner that presents fairly the financial position and results of operations of the various funds and account groups of the City government. All information necessary to enable the reader to gain an understanding of the City's government activities has been included.

Management of the government is responsible for establishing and maintaining an internal control structure designed to ensure that the assets of the government are protected from loss, theft or misuse and to ensure that adequate accounting data are complied with to allow for the preparation of financial statements in conformity with accounting principles generally accepted in the United States of America (GAAP). The internal control structure is designed to provide reasonable, but not absolute, assurance that the financial statements will be free from material misstatement. The concept of reasonable assurance recognizes that: 1) the cost of a control should not exceed the benefits likely to be derived and 2) the valuation of costs and benefits requires estimates and judgments by management.

City of Aberdeen's financial statements have been audited by McGladrey & Pullen, Independent Certified Public Accountants. The goal of the independent audit is to provide reasonable assurance that the financial statements of the City of Aberdeen for the fiscal year ended June 30, 2011 are free of material misstatement. The independent audit involved examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements; assessing the accounting

principles used and significant estimates made by management; and evaluating the overall financial statement presentation. The independent auditor concluded, based upon the audit, that there was a reasonable basis for rendering an unqualified opinion that the financial statements for City of Aberdeen for the fiscal year ended June 30, 2011 are fairly presented in conformity with GAAP. The auditor's report is presented as the first component of the financial section of this report.

GAAP requires that management provide a narrative introduction, overview and analysis to accompany the basic financial statements in the form of Management's Discussion and Analysis (MD&A). This letter of transmittal is designed to complement MD&A and should be read in conjunction with it. The City's MD&A can be found immediately following the report of the independent auditors.

PROFILE OF THE GOVERNMENT

The City of Aberdeen was incorporated in 1892. The City is a full service municipality providing water and wastewater utilities, public safety, planning, public works, and environmental and administrative services to a populous of 14,959 citizens. Services are provided through a Mayor and Council form of government with a City Manager serving as the Chief Operating Officer.

Located in northeastern Maryland, Aberdeen is a community traversed by two interstate highways, Interstate 95 and Route 40, and two rail lines, Amtrak and CSX.

Pursuant to City Charter, the Mayor presents the capital and operating budgets to the City Council during April of each year. The City Council holds public hearings regarding the budgets and, prior to July 1, passes an annual appropriation ordinance. The legislation becomes effective July 1 and provides the spending authority at the fund level for the operations of the City Government with unexpended or unencumbered appropriation authority expiring the following June 30. The appropriated budgets are prepared by fund and department. Expenditures of the funds may not legally exceed appropriations at the fund level. During the fiscal year, the City Council may adopt supplemental appropriations. A Statement of Revenues, Expenditures, and Changes in Fund Balances on a Budget (Non-GAAP) vs. Actual basis is presented for the two major governmental funds which adopted an annual budget, and can be found on pages 66 and 70 of this report.

FACTORS AFFECTING FINANCIAL CONDITION

The information presented in the financial statements is perhaps best understood when it is considered from the broader perspective of the specific environment within which the City operates.

Local economy - Aberdeen has a rich history as a military community and is home to the United States Army's Aberdeen Proving Ground. Aberdeen Proving Ground (APG) was established on October 20, 1917 and is the U.S. Army's oldest active testing and evaluation facility. As a

center for Army material testing, laboratory research and military training, the post is a key element in the nation's defense. APG is one of the Army's finest test, evaluation, research, development, engineering and training installations in the world.

In 2005, Congress completed its BRAC (Base Realignment and Closure) process. APG had had its mission changed from ordinance development, testing and training to high tech electronic research and development. As a result, it is projected that jobs at APG will grow from 17,450 to between 27,000 and 32,000, including contractors, by 2015. These new personnel will have higher skill levels and incomes than those that they replace. This will impact positively on the local economy.

The City has a diversified employment base with a good blend of commercial, industrial, financial, governmental and non-profit institutional employers. Major employers include Frito-Lay Inc., Saks Fifth Avenue, Pier I Imports, Harford County Board of Education and Aberdeen Proving Ground. Ripken Stadium offers residents a quality of life amenity through minor league baseball and also serves as a high profile neighbor to the Ripken youth baseball academy which attracts thousands of young aspiring baseball players each year.

Long-term financial planning – In October 2011, Fitch Ratings, and Standard and Poor's Rating Services assigned their AA rating to the City.

The water and sewer systems will continue to be the primary focus for the City in years to come. The City is also looking into ways to increase its water production capability as well as its water storage capability. On the wastewater side, the City must undertake mandated ENR (Enhanced Nutrient Removal) upgrades at its wastewater plant. In addition, some related upgrades and long term maintenance projects must be completed at the wastewater plant.

The City purchased 300,000 gallons of daily water production capacity from the Harford County water system in 2010. The City will have the option to buy an additional 600,000 gallons of water production capacity from the County after certain agreements between Harford County and Baltimore City regarding raw water supply are finalized. For the 2010 purchase of the 300,000 gallons capacity, the City paid the County \$5,044,100, the financing for which was obtained through the Infrastructure Program administered by the Community Development Administration of Maryland's Department of Housing and Community Development.

Like many other Maryland wastewater plants, the Aberdeen plant is mandated to upgrade to an ENR process. This mandated upgrade will also require other additional additions to the plant. Construction has begun on these projects and is expected to be completed in FY 2013. These projects are estimated to cost about \$25 million. The upgrades are financed through grants and loans administered by the Maryland Department of the Environment.

A WARDS

The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to City of Aberdeen for its

comprehensive annual financial report (CAFR) for the fiscal year ended June 30, 2010. The Certificate of Achievement is the highest form of recognition for excellence in state and local government financial reporting. In order to be awarded a Certificate of Achievement, a governmental unit must publish an easily readable and efficiently organized comprehensive annual financial report. This report must satisfy both accounting principles generally accepted in the United States of America and applicable legal requirements.

A Certificate of Achievement is valid for a period of one year only. We believe our current comprehensive annual financial report continues to meet the Certificate of Achievement Program requirements, and we are submitting it to the GFOA to determine its eligibility for another certificate.

ACKNOWLEDGMENTS

The preparation of this report could not have been accomplished without the efficient and dedicated service of the entire staff of the Finance Department. We extend our sincere appreciation to each member of this department.

Also, special thanks go to the Mayor and City Council for their leadership and support in planning and overseeing the governmental operations in a responsible and progressive manner.

Respectfully submitted,

Douglas R. Miller City Manager

Opiribo Jack, CPA Director of Finance

Certificate of Achievement for Excellence in Financial Reporting

Presented to

City of Aberdeen Maryland

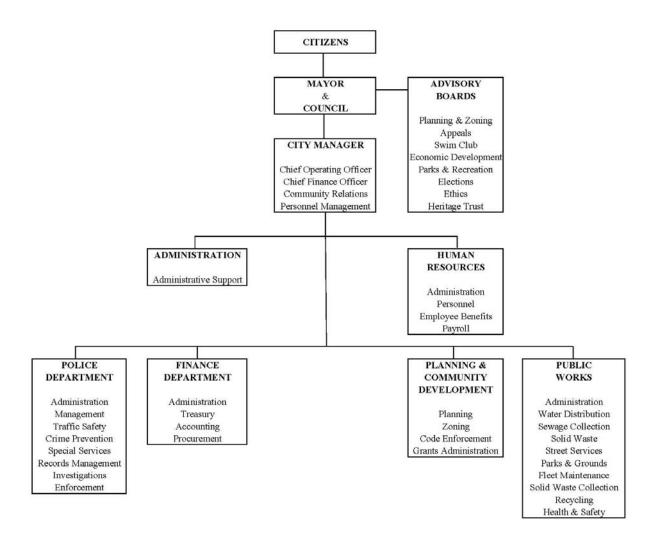

For its Comprehensive Annual Financial Report for the Fiscal Year Ended June 30, 2010

A Certificate of Achievement for Excellence in Financial Reporting is presented by the Government Finance Officers Association of the United States and Canada to government units and public employee retirement systems whose comprehensive annual financial reports (CAFRs) achieve the highest standards in government accounting and financial reporting.

Independent Auditor's Report

To the Honorable Mayor and Members of the City Council City of Aberdeen, Maryland

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund and the aggregate remaining fund information of the City of Aberdeen, Maryland as of and for the year ended June 30, 2011, which collectively comprise the City of Aberdeen, Maryland's basic financial statements as listed in the table of contents. These financial statements are the responsibility of the City of Aberdeen, Maryland's management. Our responsibility is to express opinions on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the City's internal control over financial reporting. Accordingly, we express no such opinion. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinions.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund and the aggregate remaining fund information of the City of Aberdeen, Maryland as of June 30, 2011 and the respective changes in financial position and cash flows, where applicable, thereof and the budgetary comparison for the General Fund for the year then ended in conformity with accounting principles generally accepted in the United States of America.

As discussed in Note 12, the City of Aberdeen changed its method of accounting for inventory in the Water Fund and Sewer Fund.

In accordance with *Government Auditing Standards*, we have also issued a report dated October 31, 2011 on our consideration of the City of Aberdeen, Maryland's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be considered in assessing the results of our audit.

The Management's Discussion and Analysis and the Schedules of Employer Contributions and of Funding Progress for the Defined Benefit Pension Plan, the Police Defined Benefit Pension Plan and the Other Post Employment Benefits on pages 10 through 20 and 63 through 65 are not a required part of the basic financial statements but are supplementary information required by the accounting standards generally accepted in the United States of America. We have applied certain limited procedures, which consisted primarily of inquiries of management regarding the methods of measurement and presentation of the required supplementary information. However, we did not audit the information and express no opinion on it.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the City of Aberdeen, Maryland's basic financial statements. The other schedules, listed in the table of contents as supplementary information, are presented for purposes of additional analysis and are not a required part of the basic financial statements of the City of Aberdeen, Maryland. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

The accompanying introductory and statistical sections, as listed in the Table of Contents, are presented for the purpose of additional analysis and are not a required part of the basic financial statements. This information has not been subjected to the auditing procedures applied in the audit of the basic financial statements and accordingly, we express no opinion on them.

McGladrey of Pullen, LLP

Frederick, Maryland October 31, 2011

Introduction

As management of the City of Aberdeen, Maryland (City), we offer readers of the City's financial statements this narrative overview and analysis of the financial activities of the City for the fiscal year ended June 30, 2011. The Management's Discussion and Analysis (MD&A) is best understood if read in conjunction with the City's basic financial statements.

Financial Highlights

- 1. The City's assets exceeded its liabilities at the close of the most recent fiscal year by \$47.4 million (*net assets*). Of this amount, \$3.8 million (*unrestricted net assets*) may be used to meet the government's ongoing obligations to citizens and creditors.
- 2. The City's total net assets increased \$8.3 million. Most of this increase is attributable to increases in property tax revenues, charges for services and, sewer fund capital grants and contributions.
- 3. The City's total long-term liabilities increased by \$5.3 million during the current fiscal year from \$17.8 million to \$23.2 million.
- 4. As of the close of the current fiscal year, the City's governmental funds, on a current financial resource basis, reported a combined ending fund balance of \$6.8 million. This represents an increase of \$2.2 million over the prior year. About 86.8% (\$5.9 million) is unassigned and is available for spending at the City's discretion.
- 5. At the end of the current fiscal year, unassigned fund balance for the General Fund was \$5.9 million or 45.4% of total General Fund expenditures (including transfers).

Overview of the Financial Statements

This discussion and analysis is intended to serve as an introduction to the City's basic financial statements. The City's basic financial statements are comprised of three components:

1) Government-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements. This report also contains other required and non-required supplementary information in addition to the basic financial statements themselves.

Government-wide financial statements. The government-wide financial statements are designed to provide readers with a broad overview of the City's finances, in a manner similar to a private-sector business.

The statement of net assets presents information on all of the City's assets and liabilities, with the difference between the two reported as net assets. Over time, increases or decreases in net assets may serve as a useful indicator of whether the financial position and condition of the City is improving or deteriorating.

The statement of activities presents information showing how the government's net assets changed during the most recent fiscal year. All changes in net assets are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future periods (e.g., uncollected taxes and earned but unused vacation leave).

Both of the government-wide financial statements distinguish functions of the City that are principally supported by taxes and intergovernmental revenues (governmental activities) from other functions that are intended to recover all or a significant portion of their costs through user fees and charges (business-type activities). The governmental activities of the City include general government, public safety, public works, parks and recreation, municipal buildings, and economic and community development. The business-type activities of the City include water, sewer, and stadium operations.

The government-wide financial statements include only the City of Aberdeen because the City has no component unit relationships with any other agency. The government-wide financial statements can be found on pages 21 and 22 of this report.

Fund financial statements. A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The City of Aberdeen, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the City can be divided into three categories: governmental funds, proprietary funds, and fiduciary funds.

Governmental funds. Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating a government's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for government funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental fund balance sheet and governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

The City maintains three individual governmental funds – the General, Capital Projects, and Special Revenue funds. Information is presented separately in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures, and changes in fund balances for all three governmental funds.

The City adopts an annual appropriated budget for its individual governmental funds, except for the Special Revenue fund. A budgetary comparison statement has been provided for the General fund to demonstrate compliance with this budget. The governmental funds financial statements can be found on pages 23 to 27 of this report. In addition, a more detailed schedule showing budgetary comparison of the general fund and a budgetary comparison of the capital projects fund is included as other supplementary information.

Proprietary funds. The City maintains only Enterprise funds, which are used to report the same functions presented as business-type activities in the government-wide financial statements. The City uses enterprise funds to account for its Water, Sewer, and Stadium funds. The basic proprietary fund financial statements can be found on pages 28 to 30 of this report.

Notes to the financial statements. The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes are part of the basic financial statements and can be found on pages 33 to 62 of this report.

Other information. In addition to the basic financials statements and accompanying notes, this report also presents certain required supplementary information concerning the City's progress in funding its obligation to provide pension benefits to its employees. Required supplementary information can be found on pages 63 to 65 of this report. Other supplementary information as noted in the table of contents can be found on pages 66 to 70 of this report.

Government-wide Financial Analysis

As noted earlier, net assets may serve over time as a useful indicator of a government's overall financial condition and position. In the case of the City, assets exceeded liabilities by \$47.4 million at the close of the most recent fiscal year. City of Aberdeen net assets are divided into three categories – invested in capital assets (net of related debt), restricted net assets and unrestricted net assets.

The largest portion of the City's net assets (90.3%) reflects its investment in capital assets net of depreciation (e.g., land and improvements, buildings, machinery, equipment, infrastructure, and improvements); less any un-matured debt used to acquire these assets. The debt used to acquire these assets must be repaid using other financial resources because the assets themselves cannot be used for repayment.

Restricted net assets represent 1.8% of total net assets. Restricted net assets are resources that are subject to external restrictions on how they may be used.

Unrestricted net assets of the government have a balance of \$3.8 million (7.9% of total net assets) that may be used to meet the government's ongoing obligations to citizens and creditors. The unrestricted net assets for business-type activities have a deficit balance of \$1.1 million.

At the end of the current fiscal year, all three categories of net assets are positive for both the government as a whole as well as for the governmental and business-type activities except for the unrestricted net assets for the business-type activities.

The City's net assets experienced a 21.2% increase. This reflects the increase in tax revenues, utility usage charges and, sewer fund capital grants and contributions.

The following table summarizes the net assets for governmental and business-type activities as of June 30, 2011 and 2010:

| | Goverr | nmer | ntal | Busine | ss-t | ype | | | |

Governmental activities: The increase in net assets for governmental activities was \$2.2 million. The line items that had significant increases compared to 2010 are listed below:

- Property taxes increased by \$563 thousand or 6.2% during the year. This increase is due to new growth
 and increased property values as assessed by the State Department of Assessments and Taxation. Most
 other revenues did not change significantly from the prior year.
- Charges for services increased \$456 thousand or 20.3% largely due to increases in APG water and sewer management fees.
- Expenses decreased by \$693 thousand or 5.2% from the prior year. The major changes in expenses from the prior year can mostly be attributed to: unfilled vacant positions, savings in medical insurance premiums, and controlled spending.

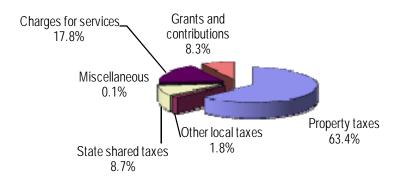

The following chart compares the Expenses and Program Revenues of the City's Governmental Activities:

Expenses and Program Revenues Governmental Activities (000)

The following chart shows Revenues by Source of the City's Governmental Activities:

Revenues by Source Governmental Activities

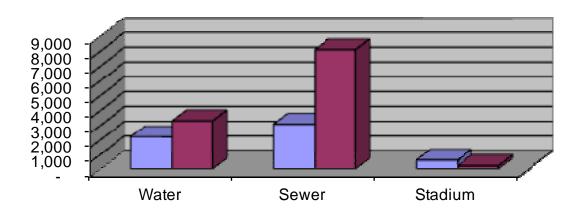

Business-type Activities: Business-type activities increased the City's net assets by \$6.1 million, which is \$5.5 million more than the increase from 2010 to 2011. Key elements of this increase are as follows:

- Capital grants and contributions increased \$4.7 million due to increased state funding for capitalized upgrades to the wastewater treatment plant, which resulted in program revenue significantly exceeding expenses.
- Charges for services increased \$1.5 million due to increased consumption levels, APG management fees, and the establishment of the ENR fee which will be utilized for debt service payments.
- Business-type expenses remained relatively consistent with the previous year. Payments for upgrades to the wastewater treatment plant have been capitalized and therefore, are not recorded as expenses when incurred.

The following chart compares the Expenses and Program Revenues of the City's Business-type Activities.

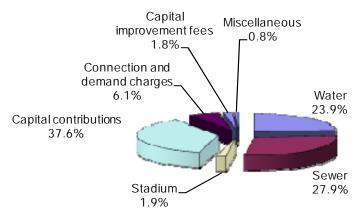

Expenses and Program Revenues Business-Type Activities (000)

■ Operating Expenses ■ Program Revenue

The following chart shows Revenues by Source of the City's Business-type Activities.

Revenues by Source Business-Type Activities

Financial Analysis of the Government's Funds

As noted earlier, the City of Aberdeen uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Governmental funds. The focus of the City of Aberdeen's governmental funds is to provide information on near-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing the City's financing requirements. In particular, unassigned fund balance may serve as a useful measure of a government's net resources available for spending at the end of the fiscal year.

As of the end of the current fiscal year, the City of Aberdeen's governmental funds reported combined ending balances of \$6.8 million, an increase of \$2.2 million in comparison with the prior year. Approximately 86.8% of this total amount (\$5.9 million) constitutes unassigned fund balance, which represents working capital available to support governmental operating needs and future years' expenditures. The remainder of fund balance is classified to reflect constraints on the City's remaining fund balance, including: 1) non-spendable fund balance for other assets, including prepaid items, inventory, and long-term receivables (\$31 thousand), 2) restricted for community development (\$521 thousand), and 3) assigned balances for storm water management and capital projects (\$341 thousand).

The General Fund is the chief operating fund of the City of Aberdeen. At the end of the current fiscal year, unassigned fund balance of the General Fund was \$5.9 million, which represents 99.5% of total fund balance. As a measure of the General Fund's liquidity, it may be useful to compare both unassigned fund balance and total fund balance to total fund expenditures. Unassigned fund balance represents 45.4% of total General Fund expenditures (including transfers), while total fund balance represents 45.7% of that same amount. The General Fund balance increased by \$2.2 million during the current fiscal year.

The key elements are:

- Total revenues increased compared to the prior year by \$1.4 million.
- Taxes increased \$809 thousand due to new growth and increased property values as assessed by the State Department of Assessment and Taxation.
- APG management fees increased \$581 thousand due to fiscal year 2011 being the first full year under the new overhead allocation methodology.
- Total expenditures remained consistent with the prior year.

Financial resources of the Capital Project Fund are used in the acquisition or construction of major capital projects not financed by the proprietary funds. At the end of the current fiscal year, fund balance of \$160 thousand was assigned to storm water management, and the remaining fund balance of \$180 thousand was assigned to capital projects for a total fund balance of \$340 thousand. The fund balance increased by \$35 thousand during the current fiscal year.

The key element is:

- Intergovernmental revenues decreased from the prior year by \$858 thousand largely due to lower Community Development Block Grant revenue and one-time federal funding in fiscal year 2010 which was not obtained in fiscal year 2011.
- The reduction in revenue was offset with a \$648 thousand decrease in expenditures and a \$414 thousand increase in operating transfers in from the General Fund.

Proprietary funds. The City of Aberdeen's proprietary fund statements provide the same type of information found in the government-wide financial statements, but in more detail. Unrestricted net assets of the three funds at the end of the year amounted to a surplus of \$1.2 million for the Water Fund, a deficit of \$2.4 million for the Sewer Fund, and a surplus of \$154 thousand for the Stadium Fund. The total net assets increased by \$6.1 million. Other factors concerning these funds' finances have been addressed in the discussion of the City of Aberdeen's business-type activities.

General Fund Budgetary Highlights

The final budget for the General Fund was increased \$271 thousand (2.4%) over the original budget to adjust for situations arising during the year. The most significant increases relate to a \$106 thousand increase in required pension contributions, \$80 thousand increase for lighting replacements at City Hall and a \$33 thousand increase for swimming pool repairs.

Capital Asset and Debt Administration

Capital assets. The City of Aberdeen's investment in capital assets for its governmental and business-type activities as of June 30, 2011, amounts to \$62.5 million (net of accumulated depreciation). This investment in capital assets includes land, buildings, machinery and equipment (including vehicles), infrastructure (including park facilities, roads, highways and bridges) and construction in progress. The total increase in City of Aberdeen's investment in capital assets for the current fiscal year was \$10.8 million or 20.9% (a 2.2% decrease for governmental activities and a 34.3% increased for business-type activities). The major capital asset activities in the current year included water system capital projects totaling approximately \$5.4 million and upgrades to the waste water treatment plant totaling approximately \$7.4 million.

Additional information on the City of Aberdeen's capital assets can be found in Note 6, pages 44 and 45 of this report.

Long-term debt. At the end of the current fiscal year, the City of Aberdeen had total long-term liabilities outstanding of \$23.2 million. The full faith and credit and unlimited taxing power of the City are irrevocably pledged to the levy and collection of taxes in order to provide for the payment of principal and interest due on the bonds.

City of Aberdeen's Outstanding Long-term Liabilities

| | Goverr Activiti | | Busine Activiti | J . | Total | (000) |) |
|---|--------------------------|---------------------------|----------------------------|---------------------------|-----------------------------|-------|------------------------|
| | 2011 | 2010 | 2011 | 2010 | 2011 | | 2010 |
| General obligation Notes payable Financing agreement | \$ 4,758 711 36 | \$ 4,969 797 144 | \$ 12,669 2,759 - | \$ 8,271 1,333 - | \$ 17,427 3,470 36 | \$ | 13,240 2,130 144 |
| Compensated absences Net pension obligation OPEB obligation | 391 112 1,386 | 1,082 121 732 | 117 - 222 | 276 - 112 | 508 112 1,608 | | 1,358 121 844 |
| Total | \$ 7,394 | \$ 7,845 | \$ 15,767 | \$ 9,992 | \$ 23,161 | \$ | 17,837 |

During the current fiscal year the City of Aberdeen's total long-term liabilities increased by \$5.3 million or 30.0%. The City obtained a new water fund infrastructure bond in the amount of \$5.0 million and new MDE loans for wastewater treatment plan upgrades with proceeds totaling \$1.7 million during the year. The City has strictly adhered to its debt repayment amortization schedules.

The amount of general obligation debt the City of Aberdeen may issue is not limited by State statute or local ordinance. However, the City adheres to a fiscal policy adopted by its elected officials that prohibits general obligation debt from exceeding 15% of the assessed value of taxable property. The City was in full compliance at June 30, 2011. Additional information on the City of Aberdeen's long-term liabilities can be found in Note 7, pages 46 through 50 of this report

Economic Factors and Next Year's Budgets and Rates

- Regional employment that also impacts the City has been stable and is expected to remain stable. Harford
 County unemployment rates are lower than many other Maryland counties and Maryland unemployment rates
 are lower than most states in the country.
- The U.S. Army is currently adding jobs (mostly civilian) to the Aberdeen Proving Grounds as a result of BRAC (Base Realignment and Closure). Additionally there is expected to be more employment opportunities within the private sector which will support the Government jobs expansion. Generally speaking, the BRAC related activity will result in increased municipal revenue, but will also increase the services needed by the increased workforce population.
- New construction, both residential and commercial, is expected to improve slightly during the year, which will impact the real estate tax base.
- The real estate tax rate was decreased to \$0.6800 per \$100 of assessed value for the FY 2012 budget.
- The water base rate remains unchanged at \$14.50 and the Sewer base rate was increased to \$17.02 for the FY 2012 budget.

All of these factors were considered in preparing the City of Aberdeen's budget for fiscal year 2012.

Requests for Information:

This financial report is designed to provide a general overview of the City of Aberdeen's finances for all those with an interest in the government's finances. Questions concerning any of the information provided in this report or requests for additional information should by addressed to the Department of Finance, City of Aberdeen, 60 North Parke Street, Aberdeen, MD 21001 or by telephone at (410) 275-1600.

Reconciliation Of The Governmental Funds Statement Of Revenues, Expenditures, And Changes In Fund Balances To The Statement Of Activities Year Ended June 30, 2011

| Total net change in fund balances - governmental funds | \$ 2,242,644 |
|--|-----------------|
| Amounts reported for governmental activities in the statement of activities are different because: | |
| Capital outlays are reported in governmental funds as expenditures. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives as depreciation expense. This is the amount by which depreciation of \$918,703 exceeded capital outlays of \$513,840 in the current period. | (404,863) |
| In the statement of activities, only the gain/loss on the disposition of capital assets is reported, whereas in the governmental funds, the entire proceeds from the sale increases financial resources. Thus, the change in net assets differs from the change in fund balances by costs of the capital assets of \$395,744 sold, less any accumulated depreciation of \$382,288. | (13,456) |
| In the statement of activities, compensated absences are measured by the amounts earned during the year. In the governmental funds, however, expenditures for compensated absences are measured by the amount of financial resources used (essentially, the amounts actually paid or expected to be paid). This year, compensated absences used or forfeited, was more than the amount earned by \$690,671. | 690,671 |
| The net pension obligation is not an expenditure in the governmental funds until paid, whereas they are expensed in the statement of activities when incurred. This year, the net pension obligation decreased. | 9,160 |
| The OPEB obligation is not an expenditure in the governmental funds until paid, whereas they are expensed in the statement of activities when incurred. This year, the OPEB obligation increased. | (653,981) |
| Long-term debt repayments are an expenditure in the governmental funds, but the repayment reduces long-term liabilities in the statement of net assets. This is the amount of long-term repayments for 2011. | 404,920 |
| Bond issuance costs related to long-term debt is an expenditure in the general fund, however, this cost increases noncurrent assets in the statement of net assets. This is the amount of amortization expense. | (10,198) |
| Under the modified accrual basis of accounting, revenues are not recognized unless they are deemed "available" to finance current expenditures. Accrual basis recognition is not limited by availability, so certain revenues need to be reduced by the amounts that were unavailable at the beginning of the year and increased by the amounts that were unavailable at the end of the year. This adjustment records a net increase in unavailable revenue at the end of the year over the amount at the beginning of the year. | (54,984) |
| Change in net assets of governmental activities | \$ 2,209,913 |

Notes To Basic Financial Statements

Note 1. Summary Of Significant Accounting Policies

The City of Aberdeen, Maryland, (City), located in Harford County, was incorporated in 1892 under the provisions of Maryland State Law. The City operates under a form of government which comprises an elected City Council (4 members) and an elected Mayor and provides such services as authorized by its Charter.

The accounting policies of the City conform to accounting principles generally accepted in the United States of America as applicable to governments. The following is a summary of the significant accounting policies followed in the preparation of the basic financial statements:

A. Reporting Entity

In accordance with the Codification of Governmental Accounting and Financial Reporting Standards, the basic financial statements include all funds, organizations, agencies, boards, commissions and authorities for which the City is financially accountable. The City has also considered all other potential organizations for which the nature and significance of their relationships with the City are such that exclusion would cause the City's financial statements to be misleading or incomplete. GASB has set forth criteria to be considered in determining financial accountability. These criteria include appointing a majority of the organization's governing body, and 1) the ability of the City to impose its will on that organization, or 2) the potential for that organization to provide specific benefits to or impose specific financial burdens on the City. Based on these criteria, there are no other organizations or agencies which should be included in these basic financial statements.

B. Government-wide and Fund Financial Statements

<u>Government-wide Financial Statements</u>: The government-wide financial statements report information on all of the non-fiduciary activities of the City. The effect of inter-fund financial transactions has been removed from these statements. However, interfund services provided and used are not eliminated in the process of consolidation. Governmental activities, which normally are supported by taxes and intergovernmental revenues, are reported separately from business-type activities, which rely to a significant extent on fees and charges for support.

<u>Statement of Net Assets</u>: This statement is designed to display the financial position of the City as of year-end. Governmental activities are reported on a consolidated basis and are reported on a full accrual, economic resources basis, which recognizes all long-term assets, including infrastructure, as well as long-term debt and obligations. The City's net assets are reported in three categories – 1) invested in capital assets, net of related debt, 2) restricted, and 3) unrestricted.

Statement of Activities: This statement demonstrates the degree to which the direct expenses of a given function are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function. Program revenues include 1) charges to customers or applicants who purchase, use or directly benefit from goods, services, or privileges provided by a given function, and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function. Taxes and other items not included among program revenues are reported as general revenues. The City does not allocate indirect expenses.

<u>Fund Financial Statements</u>: Separate financial statements are provided for governmental funds and proprietary funds. Major individual governmental funds and major individual enterprise funds are reported as separate columns in the fund financial statements.

Notes To Basic Financial Statements

Note 1. Summary Of Significant Accounting Policies (Continued)

General Fund Budget-to-Actual Comparison Statement: Demonstrating compliance with the adopted budget is an important component of a government's accountability to the public. Many citizens participate in the process of establishing the annual budgets of state and local governments, and have a keen interest in following the financial progress of their governments over the course of the year. For this reason, the City has chosen to make its General Fund budget-to-actual comparison statement part of the basic financial statements. The City and many other governments revise their original budgets over the course of the year for a variety of reasons; as a result, both the original adopted budget and the final amended budget have been reflected in this statement.

C. Fund Accounting

The accounts of the City are organized on the basis of funds, each of which is considered to be a separate entity. The operations of each fund are accounted for with a separate set of self-balancing accounts that comprise its assets, liabilities, fund balance/net assets, revenues, and expenditures or expenses, as appropriate. The City has the following funds:

Governmental Fund Types: Governmental fund types are those funds through which most governmental functions typically are financed. Governmental fund reporting focuses on the sources, uses, and balances of current financial resources. Expendable assets are assigned to the various governmental funds according to the purposes for which they may or must be used; current liabilities are assigned to the fund from which they are paid; and the difference between governmental fund assets and liabilities, the fund equity, is referred to as "fund balance." The measurement focus is upon determination of changes in financial position, rather than upon net income determination.

The City has three major governmental funds: the general fund, the special revenue fund, and the capital projects fund. The general fund is used to account for all activities of the government not accounted for in some other fund. It accounts for the normal recurring activities of the City such as public safety, public works, parks and recreation, and general government, etc. These activities are financed primarily by property taxes, other taxes, service charges, and grants from other governmental units. The special revenue fund accounts for various projects funded by various block grants. The City utilizes a capital projects fund to account for all financial resources used for acquisition or construction of major capital facilities not financed by proprietary funds.

<u>Proprietary Fund Types</u>: Proprietary fund types are used to account for a government's ongoing organizations and activities which are similar to those often found in the private sector. The measurement focus is upon income determination, financial position, and cash flows. Private-sector standards of accounting and financial reporting issued prior to December 1, 1989, generally are followed in both the government-wide and proprietary fund financial statements to the extent that those standards do not conflict with or contradict guidance of the Governmental Accounting Standards Board. Governments also have the option of following subsequent private-sector guidance for their business-type activities and enterprise funds, subject to this same limitation. The Town has elected not to follow subsequent private-sector guidance.

The City has three major proprietary funds. The Water fund operates the water treatment plants and distribution system. The Sewer fund operates the sewage treatment plant, pumping stations and collection system. The Stadium fund accounts for the activities of Ripken Stadium.

<u>Fiduciary Fund Types:</u> The City has three pension funds, the City of Aberdeen Defined Benefit Plan, the City of Aberdeen Defined Contribution Plan, and the City of Aberdeen Police Department Pension Plan. The fiduciary funds are used to report assets held in a trust or agency capacity for others and which therefore cannot be used to support the City's own programs.

Notes To Basic Financial Statements

Note 1. Summary Of Significant Accounting Policies (Continued)

D. Measurement Focus and Basis of Accounting

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting, as are the proprietary fund financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the City considers enterprise zone tax credit revenues to be available if they are collected within 90 days of the end of the current fiscal period, while all other revenues are considered to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures are recorded only when payment is due.

In applying the susceptible to accrual concept to intergovernmental revenues, the legal and contractual requirements of the numerous individual programs are used as guidance. There are, however, essentially two types of these revenues. In one, monies must be expended on the specific purpose or project before any amounts will be paid to the City; therefore, revenues are recognized based upon the expenditures recorded and the availability criteria. In the other, monies are virtually unrestricted as to purpose of expenditure, and are usually revocable only for failure to comply with prescribed requirements. These resources are reflected as revenues at the time of receipt, or earlier if the susceptible to accrual criteria are met.

Licenses and permits, fines and forfeitures, charges for sales and services, and miscellaneous revenues are generally recorded as revenue when received in cash, because they are generally not measurable until actually received. In the category of use of money and property, property rentals are recorded as revenue when received in cash, but investment earnings are recorded as earned, since they are measurable and available.

The City is responsible for billing and collecting property taxes in accordance with enabling state legislation. Property taxes become a lien on the first day of the levy year, which is July 1 to June 30. Tax payments are due in one installment by September 30, or two semiannual installments, by September 30 and December 31, at the taxpayer's option, after which interest is accrued. Unpaid taxes are collected through the annual tax sale held on the third Monday of June after taxes become delinquent.

Amounts reported as program revenues include 1) charges to customers or applicants for goods, services, or privileges provided, 2) operating grants and contributions, and 3) capital grants and contributions, including special assessments. Internally dedicated resources are reported as general revenues rather than as program revenues. Likewise, general revenues include all taxes.

Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the City's enterprise funds are charges to customers for sales and services. Operating expenses for the enterprise funds include the cost of sales and services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

Notes To Basic Financial Statements

Note 1. Summary Of Significant Accounting Policies (Continued)

E. <u>Use of Estimates</u>

The preparation of financial statements requires the City to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenue and expenses/expenditures during the reporting period. Actual results could differ from those estimates.

F. Budgetary Data

The City follows these procedures in establishing the budgetary data reflected in the financial statements:

- 1. The Mayor submits to the City Council a proposed operating budget at least forty days before the beginning of the fiscal year. The operating budget includes proposed expenditures, the means of financing them, and the use of the federal and/or state grants.
- 2. Prior to June 30th the budget is passed by vote of the Mayor and City Council. Formal budgetary integration is employed as a management control device during the year for the general fund. Budgets are adopted according to procedures set by the Mayor and City Council of Aberdeen.
- 3. Monthly statements are provided by the Director of Finance and budget review is executed by the Mayor and City Council periodically. The City Council legally adopts an annual budget for the general fund and the capital projects fund. The City has no legally adopted annual budget for the water, sewer, and stadium enterprise funds. However, a budget is used as a management tool for these funds.

Expenditures may not exceed appropriations at the general classification level without approval from the Council. The City Manager may approve transfers between departments throughout the year. As a practical matter, the City Manager notifies the City Council periodically of any such transfers. Unexpected and unencumbered appropriations lapse at year-end. No annual budget and actual comparisons are presented in the financial statements for governmental funds utilizing project ordinances.

The policy established by the Mayor and City Council with respect to the City Budget (budgetary basis) does not conform to accounting principles generally accepted in the United States of America (GAAP basis) in certain respects. The primary differences between budgetary and GAAP basis is that under the budgetary basis encumbrances are recorded as the equivalent of expenditures. Budgeted amounts are originally adopted, and as amended by the Mayor and the City Council. Unencumbered appropriations of the operating budget lapse at the end of each fiscal year. Appropriations in the capital budget continue as authority for subsequent period expenditures, and lapse in the year of completion of the capital project.

Notes To Basic Financial Statements

Note 1. Summary Of Significant Accounting Policies (Continued)

Adjustments necessary to convert the excess of revenues and other sources over expenditures and other uses from the budgetary basis to the modified accrual basis, are as follows:

| | | Expenditures | Other | Current Year |
|--|---------------|---------------|----------------|--------------|
| | | And | Financing | Effect On |
| General Fund | Revenues | Encumbrances | Sources (Uses) | Fund Balance |
| Budgetary basis: | \$ 14,018,513 | \$ 11,167,779 | \$ (706,678) | \$ 2,144,056 |
| Reimbursable salaries under APG contract | 1,153,339 | 1,153,339 | - | - |
| Principal received on special assessments receivable | (814) | - | - | (814) |
| Increase in allowance for uncollectible receivables | - | 33,118 | - | (33,118) |
| Repayments on line of credit | - | (125,000) | - | 125,000 |
| Increase in prepaid expenditures | - | (3,144) | - | 3,144 |
| Decrease in accrued interest payable | | (1,509) | - | 1,509 |
| Modified accrual basis | \$ 15,171,038 | \$ 12,224,583 | \$ (706,678) | \$ 2,239,777 |

G. Cash, Cash Equivalents and Investments

The City's cash and cash equivalents are considered to be cash on hand, demand deposits and short-term investments with original maturities of three months or less. Short-term investments are stated at fair value, and consist of certificates of deposit. Fair value generally approximates cost. Cash deposits of the City are made in accordance with the Annotated Code of Maryland (the Code), which requires depositories to give security in the form of collateral as provided for in the Code, for the safekeeping and forthcoming, when required, of these deposits.

Excess funds are also permitted to be invested in either bonds or other obligations for the payment of principal and interest of which the faith and credit of the United States of America are pledged, or in obligations of Federal government agencies issued pursuant to acts of Congress, or in the local government investment pool created by the State of Maryland. The Pension Trust Funds are also authorized to invest in corporate bonds and notes, preferred stocks and common stocks. Investments are reported at fair value. Net assets for benefits used to calculate the unfunded pension benefit obligation in the Pension Trust Funds are also reported at fair value.

For purposes of the statement of cash flows, the City considers all highly liquid instruments purchased with an original maturity of three months or less to be cash equivalents. Cash resources of each of the individual funds, except the pension funds and cash held by fiscal agents or required to be segregated by law or policy, are combined to form a pool of cash and investments to maximize interest earnings. Income from pooled investments is allocated to funds on the basis of their equity in pooled cash.

Temporarily restricted cash represents unspent bond proceeds which are restricted for use to certain capital improvement projects, and as a result are classified as restricted assets on the balance sheet.

Notes To Basic Financial Statements

Note 1. Summary Of Significant Accounting Policies (Continued)

H. Receivables

Accounts receivable are carried at original invoice amount less an estimate made for doubtful receivables based on a review of all outstanding amounts on a monthly basis. Management determines the allowance for doubtful accounts by regularly evaluating individual customer receivables and considering a customer's financial condition, credit history, and current economic conditions. As of June 30, 2011, management has provided an allowance for uncollectible delinquent personnel property taxes in the amount of \$203,270. Accounts receivable are written off when deemed uncollectible. Recoveries of accounts receivable previously written off are recorded when received.

An accounts receivable is considered to be past due if any portion of the receivable balance is outstanding for more than 30 days. Interest is charged on accounts receivable that are outstanding for more than 30 days and is recognized as charged.

I. Notes Receivable

Notes receivable recorded in the Stadium Fund represent a land contract and ground leases for four land lots. Collectively, these transactions are being accounted for in accordance with Financial Accounting Standards Board Statement (FASB) No. 66, *Accounting for Sales of Real Estate*. As such, since the City's receivables are subject to future subordination, the profit on Lots 3, 5, and 6 are being recognized under the cost recovery method. Under the cost recovery method, no profit is recognized until cash payments by Ripken Baseball and affiliated entities, including principal and interest, exceed the City's cost of the property. Gross profit not yet recognized is offset against the related receivable on the balance sheet. Principal collections reduce the related receivable, and interest collections on such receivables increase the unrecognized gross profit on the balance sheet.

J. Prepaid Items

Payments made to vendors for services that will benefit periods beyond June 30, 2011, are reported as prepaid items using the consumption method by recording a current asset for the prepaid amount at the time of purchase and reflecting the expenditure/expense in the year in which services are consumed.

K. <u>Inventory</u>

Inventory is valued at the lower of cost, on the first-in, first-out basis, or market. Inventory consists of chemicals and repair parts used in the operation of the municipal water system and sewer system. Inventory in the general fund is recorded under the consumption method, an expenditure when used, and is equally offset by a fund balance reserve in the fund financial statements which indicates that inventory does not constitute "available spendable resources" even though it is a component of net current assets.

L. Capital Assets

Capital assets, including land, buildings, improvements, equipment, and infrastructure (roads, storm drains, and pipe systems) are reported in the applicable governmental or business-type activities columns in the government-wide financial statements. The City defines capital assets as assets with an initial, individual cost of more than \$1,000 for land, buildings, improvements, and equipment, and \$5,000 for infrastructure and an initial useful life in excess of three years. Such assets are recorded at historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair value at the date of donation.

Notes To Basic Financial Statements

Note 1. Summary Of Significant Accounting Policies (Continued)

GASB Statement No. 34 requires the City to prospectively report all governmental activities' infrastructure assets acquired after June 30, 2003, and encourages, but does not require, the City to retroactively report infrastructure assets acquired after June 30, 1980. The City has elected not to retroactively report infrastructure assets and the accompanying basic financial statements only include infrastructure assets acquired after June 30, 2003.

Major outlays for capital assets and improvements are capitalized as projects are constructed. The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend the life of the asset are not capitalized. Interest on debt during the construction period is capitalized. The amount of interest to be capitalized is offset by interest income earned on invested proceeds over the same period.

Capital assets are being depreciated using the straight-line method over the following estimated useful lives:

| <u>Assets</u> | <u>Years</u> |
|-----------------------------------|---------------|
| Equipment, equipment and vehicles | 3 – 10 years |
| Recreational facilities | 5 – 10 years |
| Improvements other than buildings | 5 – 15 years |
| Buildings | 40 – 50 years |
| Infrastructure | 40 – 50 years |
| Water and sewer systems | 40 – 50 years |

M. Earned But Not Available Revenue

Governmental funds report earned but not available revenue in connection with receivables for revenue that are not considered to be available to liquidate liabilities of the current period.

N. Deferred Revenue

Governmental funds, along with proprietary funds, also defer revenue recognition in connection with resources that have been received, but not yet earned.

O. Inter-fund Transactions

Activity between funds that are representative of lending/borrowing arrangements at the end of the fiscal year are referred to as "due to/from other funds." Any residual balances outstanding between the governmental activities and business-type activities are reported in the government-wide financial statements as "internal balances."

Interfund balances result from the time lag between the dates that 1) interfund goods and services are provided or reimbursable expenditures occur, 2) transactions are recorded in the accounting system, and 3) payments between funds are made. Interfund receivables and payables are non interest-bearing and are normally settled in the subsequent period.

Transactions, which constitute the transfer of resources from a fund receiving revenues to a fund through which the revenues are to be expended, are separately reported in the respective funds' operating statements as either transfers in or out.

Notes To Basic Financial Statements

Note 1. Summary Of Significant Accounting Policies (Continued)

P. <u>Bond Premiums and Issuance Costs</u>

In the government-wide financial statements and proprietary fund statements, bond premiums and issuance costs are deferred and amortized over the term of the bonds using the bond-outstanding method which approximates the effective interest method. In the governmental fund statements, bond premiums and issuance costs are recognized as expense immediately. At June 30, 2011, bond issue costs amounted to \$140,436 in the government-wide financial statements and \$98,462 in the proprietary fund statements. During the year ended June 30, 2011, amortized expense of \$10,198 and \$5,691 was recorded in the governmental activities financial statements and the proprietary fund statements, respectively.

Q. <u>Compensated Absences</u>

It is the City's policy to permit employees to be paid for accumulated earned but unused vacation leave up to 480 hours upon separation of service. Vacation leave is accrued when earned in the government-wide statements, as well as the proprietary fund statements.

For governmental fund types, the amount of accumulated unpaid vested leave which is payable from available resources is recorded as a liability of the respective fund only if they have matured, for example, as a result of employee retirements and resignations.

R. <u>Fund Balance</u>

The City was required to adopt GASB Statement No. 54, *Fund Balance Reporting and Governmental Fund Type Definitions* for the year ended June 30, 2011. The categories of fund balance presented in the City's financial statements have changed as a result of implementing this Statement, see changes as reported on the Balance Sheet - Governmental Funds. The Mayor and City Council must approve a motion in order to establish a fund balance commitment or assignment and only needs to approve the elimination of a fund balance commitment. The City first considers restricted amounts to have been spent when an expenditure is incurred for purposes for which both restricted and unrestricted fund balance is available. When unrestricted amounts are considered to have been spent, the City considers committed amounts first, then assigned, and finally unassigned when a expenditure is incurred for which amounts in any of those unrestricted fund balance classifications could be used.

S. Net Assets

Net assets represent the difference between assets and liabilities. Net assets invested in capital assets, net of related debt, consists of capital assets, net of accumulated depreciation, reduced by the outstanding balances of any borrowings used for the acquisition, construction or improvement of those assets. Net assets invested in capital assets, net of related debt excludes unspent debt proceeds. Net assets are reported as restricted when there are limitations imposed on their use either through the enabling legislation adopted by the City or through external restrictions imposed by creditors, grantors or laws or regulations of other governments. Restricted resources are used first to fund appropriation.

The City first applied restricted resources when an expense is incurred for purposes for which both restricted and unrestricted net assets are available.

Notes To Basic Financial Statements

Note 2. Cash And Investments

Maryland State law limits investments in any federally insured bank in the State of Maryland or federally insured savings and loan association in the State of Maryland in interest-bearing time deposit or savings accounts, or in the local government investment pool. The City invests primarily in deposits in the Maryland Local Government Investment Pool (MLGIP), which are carried at cost, plus accrued interest. The MLGIP is rated "AAAm" by Standard and Poor's (their highest rating).

Fair value fluctuates with interest rates, and increasing interest rates could cause fair value to decline below the original cost. To limit the City's exposure to fair value losses arising from increasing interest rates, the City's investment policy limits the term of investment maturities. City management believes the liquidity in the portfolio is adequate to meet cash flow requirements and to preclude the City from having to sell investments below original costs for that purpose. The investments at June 30, 2011 met the City's investment policy.

Custodial credit risk is the risk that, in the event of failure of the counterparty, the City will not be able to recover all or a portion of the value of its deposits, investments or collateral securities that are in the possession of an outside party. The City's investment custodial risk policy requires all investments to be insured or registered, or for which the securities are held by the City or its agent in the City's name. At June 30, 2011, the City's cash and investments were not exposed to custodial credit risk.

Defined Benefit and Defined Contribution Plans investments include separate and guaranteed accounts held by Principal Financial Group and ICMA-RA Services, both agents of the Plans. Plan investments include various types of mutual funds which are not rated. Such investments are exposed to various risks such as market and credit. Due to the level of risk associated with such investments, and the level of uncertainty related to change in the value of such investments, it is at least reasonably possible that changes in risks in the near term would materially affect investment balances and the amounts reported in the financial statements. Dividends earned and realized and unrealized gains and losses attributable to the mutual funds are included in investment income. Plan investments are reported at fair value.

Note 3. Notes Receivable

In September 2006, the City entered into a land contract with Ripken Baseball Academy, LLC (Ripken Baseball) whereby the City will sell to Ripken Baseball Lot 3 and the McDonald property within the stadium complex. This contract supersedes two ground leases previously entered into by the City and Ripken Baseball, but leaves the repayment terms of the original leases unchanged. Under the contract, Ripken Baseball received credit for all payments made under the respective ground leases and made the effective date of the contract that of which the ground leases were entered into. Ripken Baseball exercised an option to reduce payments on Lot 3 by real estate taxes paid on the property annually. The City estimates total future real estate taxes to reduce future principal payment of approximately \$213,000.

Notes To Basic Financial Statements

Note 7. Long-Term Liabilities (Continued)

Financing agreements relating to governmental activities at June 30, 2011, consists of the following:

Bank financing agreement, original amount \$77,291; annual principal and interest payments ranging from \$37,311 to \$40,703, interest at 5.03%, maturing June 2012

\$ 36,389

A schedule of maturities of the financing agreement relating to governmental activities as of June 30, 2011, is as follows:

| Years Ending June 30, | Р | rincipal | Interest | Total |
|-----------------------|----|----------|-----------|--------------|
| 2012 | \$ | 36,389 | \$ 922 | \$ 37,311 |

The entire accumulated unused compensated absences liability and the OPEB obligation for governmental activities will be liquidated by the general fund.

General obligation bonds payable relating to business-type activities at June 30, 2011, consist of the following:

| Series B Infrastructure Bonds of 2007; authorized amount \$3,084,500; interest at rates ranging from 3.5% to 4.25%; payable in annual payments of principal ranging from \$105,000 to \$221,000 and semiannual payments of interest through May 2027 | \$ | 2,642,500 |
|--|----|------------|
| Series A Infrastructure Bonds of 2002; authorized amount \$1,045,700; interest at rates ranging from 2.25% to 4.375%; payable in annual payments of principal ranging from \$19,400 to \$78,500 and semiannual payments of interest through May 2022 | | 681,400 |
| Series B Infrastructure Bonds of 2001; authorized amount \$4,812,700; interest at rates ranging from 4.0% to 5.0%; payable in annual payments of principal ranging from \$184,000 to \$383,500 and semiannual payments of interest through May 2021 | | 3,120,200 |
| Series B Land Purchase Bonds of 2001; authorized amount \$1,930,000; interest at rates ranging from 6.25% to 6.8%; payable in annual payments of principal ranging from \$60,000 to \$175,000 and semiannual payments of interest through May 2021 | | 1,330,000 |
| Series A Infrastructure Bond of 2010; authorized amount \$5,044,100; interest at rates ranging from 0.75% to 4.31%; payable in annual payments of principal ranging from \$198,000 to \$350,500 and semiannual payments of interest through May 2030 | | 4,895,216 |
| interest throught way 2000 | \$ | 12,669,316 |
| | Ψ | 12,007,010 |

Notes To Basic Financial Statements

Note 7. Long-Term Liabilities (Continued)

A schedule of maturities of the general obligation bonds payable relating to the business-type activities as of June 30, 2011, is as follows:

| Years Ending June 30, | Principal | Interest | Total |
|-----------------------|------------------|-----------------|------------------|
| 2012 | \$ 722,016 | \$ 534,220 | \$ 1,256,236 |
| 2013 | 749,000 | 508,235 | 1,257,235 |
| 2014 | 774,200 | 48,004 | 822,204 |
| 2015 | 809,400 | 449,485 | 1,258,885 |
| 2016 | 839,300 | 416,718 | 1,256,018 |
| 2017-2021 | 4,802,800 | 1,486,024 | 6,288,824 |
| 2022-2026 | 2,433,600 | 601,415 | 3,035,015 |
| 2027 | 1,539,000 | 126,810 | 1,665,810 |
| | \$ 12,669,316 | \$ 4,170,911 | \$ 16,840,227 |

Notes payable relating to business-type activities at June 30, 2011, consists of the following:

| Loans payable, Maryland Water Quality Financing Administration, accruing interest at rates ranging from 3.38% to 4.894%; payable in annual principal payments at varying amounts and semiannual payments of interest; due dates through 2018 | \$ 359,140 |
|--|-----------------|
| Bank term loans, issued for a combined amount of \$2,312,820, accruing interest at rates ranging from 3.55% to 4.75%; payable monthly, quarterly or semiannually at varying amounts; due dates through 2014 | 650,497 |
| Loan payable, Maryland Department of the Environment, accruing interest at a rate of 1.00%; payable in annual principal payments at varying amounts and semiannual payments of interest; due dates through 2030 | 520,441 |
| Loan payable, Maryland Department of the Environment, accruing interest at a rate of 0.90%; payable in annual principal payments at varying amounts and semiannual payments of interest; due 2032 | 1,019,951 |
| Loan payable, Maryland Department of the Environment, non-interest bearing, no payments due through 2020 at which time loan is subject to forgiveness | 208,905 |
| | \$ 2,758,934 |

Notes To Basic Financial Statements

Note 7. Long-Term Liabilities (Continued)

A schedule of maturities of the notes payable relating to the business-type activities as of June 30, 2011, is as follows:

| Years Ending June 30, | Principal | Interest | Total |
|-----------------------|-----------------|---------------|-----------------|
| 2012 | \$ 282,330 | \$ 47,684 | \$ 330,014 |
| 2013 | 364,872 | 41,691 | 406,563 |
| 2014 | 292,527 | 27,761 | 320,288 |
| 2015 | 128,750 | 19,980 | 148,730 |
| 2016 | 130,824 | 17,541 | 148,365 |
| 2017-2021 | 707,429 | 55,840 | 763,269 |
| 2022-2026 | 407,906 | 32,088 | 439,994 |
| 2027-3031 | 388,823 | 12,832 | 401,655 |
| 2032 | 55,473 | 503 | 55,976 |
| | \$ 2,758,934 | \$ 255,920 | \$ 3,014,854 |

Note 8. Line Of Credit

The City entered into a revolving line of credit agreement with a commercial bank for \$2,000,000 with interest adjusted daily to seventy percent of the bank prime rate published in the Wall Street Journal, subject to a 2.8 percent floor. The line of credit is used for operating expenditures and capital purchases. The line is renewed annually. There was \$594,981 outstanding on the line of credit at June 30, 2011 recorded in the General Fund.

Notes To Basic Financial Statements

Note 9. Retirement Plans

Under authority granted by the charter of the City, the City provides pension and retirement benefits for substantially all full-time City employees through three plans: Defined Benefit Plan, Defined Contribution Plan and Police Department Pension Plan.

Separate, audited GAAP-basis pension plan reports are not available for the plans.

Defined Benefit Plan

Description of Plan:

The City's Defined Benefit Pension Plan (DB Plan) is a single-employer noncontributory defined benefit pension plan controlled by City ordinance. The DB Plan is governed by the City which is responsible for the management of plan assets. The City has delegated the authority to manage plan assets to Principal Financial Group. This plan was closed to new participants after June 30, 1997.

Plan Membership:

The DB Plan's membership consisted of the following as of July 1, 2010, the date of the last actuarial valuation:

| Active employees | 1 |
|--|----|
| Retirees and beneficiaries currently receiving benefits | 20 |
| Terminated employees entitled to benefits but not yet receiving them | 3 |
| Total | 24 |

Contribution Information and Funding Policy:

The DB Plan covers all employees of the City with 1,000 hours of annual eligible service who are not participants in the defined contribution plan or the police defined benefit plan. Provisions of the DB Plan include retirement and death benefits to plan members and their beneficiaries. Cost of living adjustments are provided at the discretion of the City legislature. Benefits and refunds of the postemployment defined benefit plan are recognized when due and payable in accordance with the terms of the plan.

The contribution requirements of the City are established and may be amended by the City legislature. The City is required to contribute at an actuarially determined rate. The actuarially required contribution rate and the amount paid into the DB Plan for the year ended June 30, 2011 was \$64,215. The DB Plan does not provide for a maximum employer contribution. No contributions are required of employees. As of July 1, 2010, the date of the last actuarial valuation, only one plan participant was actively working and that person has reached normal retirement age. Therefore, there is no compensation for members expected to continue earning benefits. Administrative costs are financed through investment earnings.

Valuation of Investments:

The DB Plan's Unallocated Insurance contracts are valued at contract value. Contract value represents contributions made under the contract, plus interest and contract rate, less funds used to purchase annuities or pay administrative expenses charged by Principal Financial Group. Funds under the contract that have been allocated and applied to purchase annuities are excluded from the DB Plan's assets. At June 30, 2011, no investment in any one organization exceeded five percent or more of net assets available for benefits.

Notes To Basic Financial Statements

Note 9. Retirement Plans (Continued)

Annual Pension Cost and Net Pension Obligation:

The City's annual pension cost and net pension obligation for the current year, is as follows:

| | φ. | (4.045 |
|--|----|----------|
| Annual required contribution | \$ | 64,215 |
| Interest on net pension obligation | | 7,235 |
| Adjustment to annual required contribution | | (16,383) |
| Annual pension cost | | 55,067 |
| Less contributions made | | (64,215) |
| Decrease in net pension obligation | | (9,148) |
| Net pension obligation: | | |
| Beginning | | 120,578 |
| Ending | \$ | 111,430 |

The annual required contributions for the current year were determined as part of the July 1, 2010 actuarial valuation using the entry age normal cost method. The actuarial assumptions included (a) 6.0% investment rate of return (net of administrative expenses) and (b) projected salary increases ranging from 4.1% and 7.3% per year. Both (a) and (b) included an inflation component of 2.2%. The assumptions did not include postretirement benefit increases, which are funded by City appropriation when granted. The actuarial value of assets was determined using techniques that smooth the effects of short-term volatility in the market value of investments over a four-year period. The unfunded actuarial accrued liability is amortized as a level dollar of projected payroll on an open basis. The remaining amortization period at June 30, 2010 was 10 years, which is re-established each year.

Three-year trend information:

| | Annual Pension Cost | Percentage Of APC | |
|-------------------|---------------------|-------------------|------------------------|
| Fiscal Year Ended | (APC) | Contributed | Net Pension Obligation |
| June 30, 2011 | \$ 55,067 | 116.6% | \$111,430 |
| June 30, 2010 | \$104,102 | 106.9% | \$120,578 |
| June 30, 2009 | \$106,609 | 101.2% | \$130,477 |

Funding Status and Funding Progress:

As of July 1, 2010, the most recent actuarial valuation date, the plan was 88.34% funded. The actuarial accrued liability for benefits was \$1,847,668, and the actuarial value of assets was \$1,632,250, resulting in an unfunded actuarial liability (UAAL) of \$215,418.

The schedules of funding progress, presented as required supplementary information following the notes to the financial statements, present multi-year trend information about whether the actuarial values of plan assets are increasing or decreasing over time relative to the actuarial accrued liability for benefits.

Notes To Basic Financial Statements

Note 9. Retirement Plans (Continued)

Defined Contribution Plan

Description of Plan:

The City of Aberdeen Defined Contribution Plan (DC Plan) is a defined contribution pension plan established by the City to provide benefits at retirement to employees of the City who are not participants in the defined pension plan or the police pension plan. At June 30, 2011, there were 104 plan members. DC Plan participants are required to contribute 2% of covered salary. The City is required to contribute 7% of annual covered payroll. DC Plan provisions and contribution requirements are established and may be amended by the Aberdeen City Council. Participants' and the City's actual contributions were \$188,563 and \$371,465, respectively.

Basis of Accounting:

The DC Plan's financial statements are prepared using the accrual basis of accounting. Employer and plan member contributions are recognized in the period that the contributions are due.

Valuation of Investments:

Plan investments are reported at fair value. Short-term investments are reported at cost, which approximates fair value. Securities traded on national exchanges are valued at the last reported sales price. Investments that do not have an established market are reported at estimated fair values.

Police Department Pension Plan

Description of Plan:

The Police Department Pension Plan (PD Pension Plan) is a single-employer contributory defined benefit pension plan established by the City ordinance. The PD Pension Plan is governed by the City and the retirement plan committee which is responsible for the management of plan assets. The retirement plan committee has delegated the authority to manage plan assets to Principal Financial Group.

Plan Membership:

The PD Pension Plan's membership consisted of the following as of July 1, 2010, the date of the last actuarial valuation:

| Active employees | 40 |
|--|----|
| Retirees and beneficiaries currently receiving benefits | 1 |
| Terminated employees entitled to benefits but not yet receiving them | 10 |
| Total | 51 |

Contribution Information and Funding Policy:

The PD Pension Plan covers sworn police officers who are employed on a regular full-time basis who are not participants in either the defined contribution plan or the defined benefit plan. Provisions of the PD Pension Plan include retirement and death benefits to members and their beneficiaries. Cost of living adjustments are provided at the discretion of the City legislature. Benefits and refunds of the postemployment defined benefit plan are recognized when due and payable in accordance with the terms of the plan.

The contribution requirements of the City are established and may be amended by the City legislature. The City is required to contribute at an actuarially determined rate; the current rate is 17.04% of annual covered payroll. The PD Pension Plan does not provide for a maximum employer contribution. The actuarially required contribution rate and the amount paid into the PD Pension Plan for the year ended June 30, 2011 was \$506,099. Administrative costs are financed through investment earnings.

The police officers contribute to the PD Pension Plan based on 7% of salaries. Participants' actual contributions were \$290,159 at June 30, 2011.

Notes To Basic Financial Statements

Note 9. Retirement Plans (Continued)

Annual Pension Cost and Net Pension Obligation:

The City's annual pension cost and net pension obligation for the current year, were as follows:

| | |
|--|---------------|
| Annual required contribution | \$ 506,099 |
| Interest on net pension obligation | 22 |
| Adjustment to annual required contribution | (34) |
| Annual pension cost | 506,087 |
| Less contributions made | (506,099) |
| Decrease in net pension obligation | (12) |
| Net pension obligation: | |
| Beginning | 299 |
| Ending | \$ 287 |

The annual required contributions for the current year was determined as part of the July 1, 2010 actuarial valuation using the entry age normal cost method. The actuarial assumptions included (a) 7.5% investment rate of return (net of administrative expenses) and (b) projected salary increases ranging from 5.4% and 8.6% per year. Both (a) and (b) included an inflation component of 3.5%. The assumptions did not include postretirement benefit increases, which are funded by City appropriation when granted. The actuarial value of assets was determined using techniques that smooth the effects of short-term volatility in the market value of investments over a four-year period. The unfunded actuarial accrued liability is amortized as a level dollar of projected payroll on an open basis. The remaining amortization period at June 30, 2010 was 15 years, which is re-established each year.

Three-year trend information:

| | Annual Pension Cost | Percentage Of APC | |
|-------------------|---------------------|-------------------|------------------------|
| Fiscal Year Ended | (APC) | Contributed | Net Pension Obligation |
| June 30, 2011 | \$506,087 | 100.0% | \$287 |
| June 30, 2010 | \$434,409 | 100.0% | \$299 |
| June 30, 2009 | \$304,605 | 100.0% | \$679 |

Funding Status and Funding Progress:

As of July 1, 2010, the most recent actuarial valuation date, the plan was 63.4% funded. The actuarial accrued liability for benefits was \$7,468,636, and the actuarial value of assets was \$4,738,637, resulting in an unfunded accrued actuarial liability (UAAL) of \$2,729,999. The covered payroll (annual payroll of active employees covered by the plan) was \$1,882,921, and the ratio of the UAAL to the covered payroll was 144.99%.

The schedules of funding progress, presented as required supplementary information following the notes to the basic financial statements, present multi-year trend information about whether the actuarial values of plan assets are increasing or decreasing over time relative to the actuarial accrued liability for benefits.

Notes To Basic Financial Statements

Note 9. Retirement Plans (Continued)

The financial information for each plan as of and for the year ended June 30, 2011, is summarized as follows:

| | | Defined | Po | olice Pension | Defined | |

Notes To Basic Financial Statements

Note 10. Post-Employment Health Care Benefits

The City provides other post employment benefits (OPEB) to employees who qualify as a retiree and meet specific service requirements. At June 30, 2011, 17 retirees and dependents are eligible for health benefits and 8 of those are also eligible for life insurance coverage. The cost of retiree health care and life insurance benefits is recognized as expenditure when claims are accrued.

General Plan Description and Provisions:

Healthcare and prescription drug insurance benefits are provided to eligible retirees and their eligible dependents until Medicare eligibility. Effective July 1, 2010, the City no longer offers Medicare supplemental insurance however, retirees and beneficiaries under the original defined benefit plan (DB Plan) receive reimbursement for healthcare and prescription benefits.

The City pays 80% - 90% of the monthly premium, depending upon election, including spousal and dependent coverage for participants in both Defined Benefit Plans and the Defined Contribution Plan. All full time active employees who retire or are disabled from the City (if they would otherwise meet retirement criteria) directly and meet eligible criteria may participate.

The City employees are eligible to continue group insurance coverage after retirement provided that:

- 1. Retiring employees have coverage in effect when they stop working.
- 2. Retire with an immediate benefit and:
 - a. Defined contribution plan members must have at least 20 years of service and be at least age 50 for law enforcement or at least 55 for all others.
 - b. Defined benefit plan members (police plan) must have 25 years of service.
 - c. Defined benefit plan members (original plan) have a normal retirement age of 60 for police officers; age of 65 for all other members (healthcare benefits eligibility is limited to current recipients only).
- 3. An employee must have been a full-time active employee.

Underlying Plan Description:

Pre-Medicare retirees may choose between several medical plans, a PPO, HMO or Hybrid HMO/POS plan. The PPO plan has out of network options.

Pre-Medicare retirees may choose between Preferred, Traditional, or Dental HMO dental plans and vision coverage. The City will continue the same sharing amounts as for active employees, which is currently 10% for dental and 50% for vision. Once retirees are eligible for Medicare, dental and vision coverage is available only through COBRA.

Retirees are eligible for \$13,500 life insurance coverage at retirement. The same service requirements for health care coverage are applicable for life insurance coverage. The City pays the entire cost of the coverage.

Funding Policy:

The City is required to contribute the annual required contribution of the employer (ARC), an amount actuarially determined in accordance with the parameters of GASB Statement No. 45. The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover normal costs each year and amortize any unfunded actuarial liabilities over a period not to exceed thirty years. The current ARC rate is 12% of annual covered payroll. The ARC consisted of the normal cost of \$611,000 and the amortization of unfunded accrued liability of \$278,000. The City's implicit subsidy contributed to the plan for the year ended June 30, 2011 amounted to \$76,643. The City contributed \$64,158 for current health care and life insurance premiums for the year ended June 30, 2011. As of the year ended June 30, 2011, the City has not established an OPEB trust to pre-fund future benefits.

Notes To Basic Financial Statements

Note 10. Post-Employment Health Care Benefits (Continued)

Annual OPEB Cost and Net OPEB Obligation:

The City had an actuarial valuation performed as of July 1, 2009 to determine the funded status of the plan as of that date as well as the City's ARC for the fiscal year ended June 30, 2011. The annual OPEB cost (expense) for the year ended June 30, 2011 was \$904,253 which was equal to the ARC. A historical trend of the City's annual OPEB cost, the percentage of annual OPEB cost contributed and the net OPEB obligation is as follows:

| | Annual OPEB | Percentage Of Annual | Net OPEB | |
|-----------------------|-------------|-----------------------|-------------|--|
| Fiscal Year Ended | Cost (AOC) | OPEB Cost Contributed | Obligation | |
| June 30, 2011 | \$904,253 | 15.6% | \$1,607,750 | |
| June 30, 2010 | \$925,000 | 8.7% | \$844,298 | |

Funding Status and Progress:

Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment, mortality, and the healthcare cost trend. Amounts determined regarding the funded status of the plan and the annual required contributions of the City are subject to continual revision as actual results are compared with past expectations and new estimates are made about the future. As of July 1, 2009, the most recent actuarial valuation date, the plan was 0.00% funded as the City has not yet established an OPEB trust to pre-fund future benefits. The actuarial accrued liability for benefits was \$9,625,000, which also represents the unfunded actuarial liability (UAAL).

Actuarial Methods and Assumptions:

Projections of benefits for financial reporting purposes are based on substantive plan (the plan as understood to be the employer and plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing of benefit costs between the employer and plan members to that point. The actuarial methods and assumptions used include techniques that are designed to reduce short-term volatility in actuarial accrued liabilities and the actuarial value of assets, consistent with the long-term perspective of the calculations.

The projected unit credit method with linear pro-ration to assumed benefit commencement was used in this valuation.

The unfunded liability was amortized over a period of thirty years as a level percentage of pay.

Life insurance costs are nominal and excluded from the calculation.

Normal cost is determined for each active employee as the Actuarial Present Value of benefits allocated to the valuation year. The benefit attributed to the valuation year is that incremental portion of the total projected benefit earned during the year in accordance with the plan's benefit formula. This allocation is based on each individual's service between date of hire and date of full benefit eligibility.

For current retirees and actives, actual family status and ages were used if available. Males are assumed to be three years older than females. All employees and retirees are assumed to keep their current coverage level into the future.

Notes To Basic Financial Statements

Note 10. Post-Employment Health Care Benefits (Continued)

100% of police officers are assumed to retire at the earlier of age sixty-two with five years of service or with twenty-five years of service.

Note 11. Other Information

Risk Management:

The City is exposed to various risks of loss related to torts; damages to, and destruction of assets; errors and omissions; employee's health and accident; and natural disasters. The City purchases commercial insurance to protect its interest in its property and equipment, insurance against employee dishonesty and liability protection. Settled claims have not exceeded these coverage amounts for the past three fiscal years.

Commitments and Contingencies:

Most grants and cost-reimbursable contracts specify the types of expenditures for which the grant or contracts funds may be used. The expenditures made by the City under some of these grants and contracts are subject to audit. To date, the City has not been notified of any significant unallowable costs relating to its grants or contracts. In the opinion of management, adjustments for unallowable costs, if any, resulting from such audits will not have a material effect on the accompanying financial statements.

The City entered into two contracts for construction to upgrade the Wastewater Treatment Plant to Enhanced Nutrient Removal (ENR) technology. The projects are being funded 39% by the City and 61% through State grant proceeds. The value of the City's remaining commitment under these contracts at June 30, 2011 is \$13,358,648.

The City also entered into four contracts for construction to upgrade the Water Treatment Plant. The projects are being funded with a loan from the Community Development Administration. The value of the City's remaining commitment under these contracts at June 30, 2011 is \$1,006,713.

In addition, the City entered into other contracts for capital improvements which are being funding with federal and state grants. The value of the City's remaining commitment under these contracts at June 30, 2011 is \$190,327.

Subsequent Events:

The City evaluated subsequent events for potential required disclosures through October 31, 2011, which represents the dates the financial statements were available to be issued. In October 2011, a Resolution was introduced and passed that authorized the City to issue up to \$9,485,000 in refunding debt to refinance the 2000 general infrastructure bond, the 2001 Stadium infrastructure bond, the 2002 stadium infrastructure bond, previously issued by the City.

Notes To Basic Financial Statements

Note 12. Restatement Of Net Assets

On July 1, 2010, the City changed their method of accounting for internal inventories largely resulting in the expense of consumable and rotating supplies. As a result of this change in accounting policy, beginning net assets have been restated as follows:

| | Business Type Activities - Enterprise Funds | | | | | | | |
|--|---|----|------------|----|-----------|----|------------|--|
| | Water | | Sewer | | Stadium | | Total | |
| Balance at June 30, 2010, as previously reported | \$ 3,972,853 | \$ | 11,367,214 | \$ | 7,959,334 | \$ | 23,299,401 | |
| Inventory transferred to expense | (138,681) | | (310,732) | | - | | (449,413) | |
| Balance at June 30, 2010, as restated | \$ 3,834,172 | \$ | 11,056,482 | \$ | 7,959,334 | \$ | 22,849,988 | |

Note 13. New Governmental Accounting Standards Board (GASB) Standards

The Governmental Accounting Standards Board (GASB) has issued several pronouncements prior to the year ended June 30, 2011, that have effective dates that may impact future financial presentations.

Management has not currently determined what, if any, impact implementation of the following statements may have on the financial statement of the City:

- GASB Statement Number 60, Accounting and Financial Reporting for Service Concession Arrangements, will be effective for the City beginning with its year ending June 30, 2013. This Statement requires governments to account for and report Service Concession Arrangements in the same manner by establishing recognition, measurement and disclosure requirements for both transferors and governmental operators.
- GASB Statement Number 61, *The Financial Reporting Entity Omnibus An Amendment of GASB Statements No. 14 and No. 34*, will be effective for the City beginning with its year ending June 30, 2013. This Statement addresses reporting entity issues that have arisen since the issuance of GASB Statements No. 14 and No. 34 to improve financial reporting for a governmental financial reporting entity. This Statement modifies existing requirements for the assessment of potential component units in determining what should be included in the financial reporting entity, and financial reporting entity display and disclosure requirements. It applies to financial reporting by primary governments and other stand-alone governments, and to the separately issued financial statements of governmental component units. In addition, this Statement should be applied to nongovernmental component units when they are included in a governmental financial reporting entity.

Notes To Basic Financial Statements

Note 13. New Governmental Accounting Standards Board (GASB) Standards (Continued)

- GASB Statement Number 62, Codification of Accounting and Financial Reporting Guidance Contained in Pre-November 30, 1989 FASB and AICPA Pronouncements, will be effective for the City beginning with its year ending June 30, 2013. This statement incorporates into the GASB's authoritative literature certain accounting and financial reporting guidance that is included in FASB and AICPA pronouncements issued on or before November 30, 1989, which does not conflict with or contradict GASB pronouncements. This Statement also supersedes Statement No. 20, thereby eliminating the election provided in paragraph 7 of that Statement for enterprise funds and business-type activities to apply post-November 30, 1989 FASB Statements and Interpretations that do not conflict with or contradict GASB pronouncements. However, those entities can continue to apply, as other accounting literature, post-November 30, 1989 FASB pronouncements that do not conflict with or contradict GASB pronouncements, including this Statement.
- GASB Statement Number 63, Financial Reporting of Deferred Outflows of Resources, Deferred Inflows of Resources, and Net Position, will be effective for the City beginning with its year ending June 30, 2013. This Statement provides financial reporting guidance for deferred outflows of resources and deferred inflows of resources. Concepts Statement No. 4, which introduced and defined those elements as a consumption of net assets by the government that is applicable to a future reporting period, and an acquisition of net assets by the government that is applicable to a future reporting period, respectively. Previous financial reporting standards do not include guidance for reporting those financial statement elements, which are distinct from assets and liabilities. Additionally, this Statement amends the net asset reporting requirements in Statement No. 34 and other pronouncements by incorporating deferred outflows of resources and deferred inflows of resources into the definitions of the required components of the residual measure and by renaming that measure as net position, rather than net assets.
- GASB Statement Number 64, *Derivative Instruments Application of Hedge Accounting Termination Provisions An Amendment of GASB Statement No. 53*, will be effective for the City beginning with its year ending June 30, 2012. This Statement clarifies whether an effective hedging relationship continues after the replacement of a swap counterparty or a swap counterparty's credit support provider and whether hedge accounting should continue to be applied.

(2) Table 7

(3) Includes all debt payable from general tax revenues.

Note: Detail on the City's debt can be found in the notes to the financial statements.

⁽¹⁾ All bonded debt and loans payable are backed by the full faith and credit and unlimited taxing authority of the City. Business-type bonds are included on the schedule because they are backed by the full faith and credit and unlimited taxing authority of the City; however, business-type bonds are payable from connection charges, usage charges, and surcharges.

Computation of Legal Debt Margin and Computation of Direct and Overlapping Debt June 30, 2011

COMPUTATION OF LEGAL DEBT MARGIN

| TOTAL ASSESSED VALUE OF PROPERTY | \$ 1 | 1,370,244,996 |
|---|------|---------------|
| Debt limit 15% | | 205,536,749 |
| Amount of debt applicable to debt limit | | 5,468,482 |
| LEGAL DEBT MARGIN | \$ | 200,068,267 |

COMPUTATION OF DIRECT AND OVERLAPPING DEBT

| | Net Debt Outstanding | Percentage Applicable to the Town | Share of Debt Outstanding | | |
|---|--------------------------------------|-----------------------------------|------------------------------|------------|--|
| DIRECT DEBT OF THE CITY | \$ 5,468,482 | 100.00% | \$ | 5,468,482 | |
| Indirect debt: Harford County | 464,135,811 2 | 5.65% 1 | | 26,223,673 | |
| TOTAL DIRECT AND OVERLAPPING DEBT | \$ 469,604,293 | | \$ | 31,692,155 | |
| ¹ Rate of assessed value in the City to total assessed value of the County | \$ 1,370,244,996 \$24,261,539,481 | | | | |

² This debt is not direct debt of the City. The overlapping debt represents the debt obligation of the residents through direct taxes assessed by the County.
