ABERDEEN, MARYLAND
DEPARTMENT OF PUBLIC WORKS
BID NO. 20-17**

LANDSCAPE MAINTENANCE

EXHIBIT C (Rev 1)

BED, TREE, & BUSH LANDSCAPING REQUIREMENTS

1. This work shall be performed during the growing period April 1 to November 30 for each calendar year under contract. No work shall occur from December 1 to March 31.
2. Work within this exhibit shall consist of the following locations described below and covered under the general and special provisions of the specifications: Edging, Pruning, Herbicides, Pesticides & Fertilization, Mulching, and Debris Removal.
 - a. Initial mulching and removal shall occur once in the spring with the remainder of the growing season to add or remove mulch as needed to maintain healthy levels throughout the entire season. Weeding will occur throughout the entire growing season in all beds.
 - b. Contractor to provide fifteen (15) annual plants that thrive in the local region for the locations identified below. Planting will occur once in the spring season, with the remaining season to add or remove as needed to maintain healthy plants. Contractor shall replace plants immediately as needed regardless of reason i.e. death, vandalism, drought, for locations 5 and 17 listed below. Contractor shall provide supplemental water as required to maintain annual plants if precipitation does not provide enough to keep plants healthy in these specific locations.
 - c. Contractor is expected to prune or cut back bushes at all locations at the end of the growing season. All Annuals are required to be removed from the planters at the end of the growing season.
