Concerning Discrepancies Found on the Bid Form and Special Provisions:

Due to errors found on the original Bid Form, the Bid Opening scheduled for October 11th 2023 was postponed and the sealed bids received were not opened. The generator quantities on the original Bid Form were incorrect which could cause inconsistencies in the lump sum bidding. The unopened original bids can be returned at the bidder's request.

The enclosed revised Bid Package included with this document has corrected Special Provisions and Bid Form. Please review the adjusted information and indicate if the original bid package remains correct or if a new bid package will be submitted.
